

**S P E A K E R** : Let no evil talk come out of your mouths, but only such as is good for edifying, as fits the occasion, that it may impart grace to those who hear. Ephesians 4 : 29.

We will now take up the question, To start with, starred question no.46. and Pu R. Lalzirliana to ask.

**PU R. LALZIRLIANA** : Thank you, Mr Speaker Sir, Here is my question - answer be given by Minister for school Education.

- (a) What is the cost of bench and table supplied to Primary schools by the government ?
- (b) How many schools has already been supplied during the current financial year and at what rate ?

**S P E A K E R** : The Concern Minister may now answer the question.

**Dr. R. LALTHANGLIANA  
MINISTER** : Mr Speaker Sir, to answer the question  
(a) The cost of a pain of bench and Table is Rs. 1300/-. (b) During the current Financial year. 194 Primary schools has already been supplied and the total expenditure to that effect is amounting is Rs. 61, 62, 800/-.

**PU R. LALZIRLIANA** : Mr Speaker Sir, may this item be supplied only to the schools who really need it ? It is learned that certain schools especially in rural areas do not need the items and it is a waste of fund to supply to those schools.

Secondly, it is learned that we are now having 100 or more trained Pre-Service teachers will it be possible to give priority to those trained teachers for 220 posts of Education voluteer ? They will no longer need to undergo training and expenditure of the department too will then be reduced to a great extent.

Regarding fund from SSA, we already lose Rs. 432 lakhs and 56 thousand during the year 2001-2002 due to our failure to contribute our state share, then again Rs. 708,87,000/- by the year 2003, Rs. 11,82,37,000/- by 2004 and Rs. 2,02,20,000/- by 2005, the total is amounting to Rs. 25,21,06,000/-. To improve level of education in Mizoram, it is necessary to give priority to education department, My question is, can we make contribution of the state share this year ?

Thank you.

**PU LALRINLIANA SAILO** : Thank you Mr Speaker Sir. Here is supplementary question. It is learned that those teachers who were condoned as Graduate Teacher were given arrear but of different amount. For example Pi P.C. Thannguri of Bungkawn Primary School received. 75,000/- where as Pu H.S. Sangzuala received only Rs. 60,000/-. There are many who received Rs. 20,000/-, Rs. 30,000/- etc. On what basis such payment is fixed?

Secondly, it is learned that financial approval for the appointment of Hindi Teacher has already been attained on the 1st April Last year. Where is that sanction and what is the amount?.

**PU ANDREW LALHERLIANA** : Mr Speaker Sir, supplementary question please. It is learned that interview has already been called for 500 posts of Hindi Teacher and the appointment is supposed to be made after Village Council election but result is not out till today. In this relation, it is to be noted that the concern applicants are very insecure about the appointment and are afraid that it will not be done on merit basis. May the concern authority give priority to those who already worked as officiating in rural areas?

**Dr. R. LALTHANGLIANA** : Mr Speaker Sir, before supplying the said facilities, information is given to every Village Council to furnish the requirement and was scrutinized by the District Committee Under the Chairmanship of Deputy Commissioner. It was then made according to the requirement. In this regard, I have to mention that members of school Building has already been constructed but no furniture is provided since 20 years back. The village Education Committee then decided to provide the said items from fund under SSA.

Regarding appointment of 220 Education volunteer, I am glad to mention that everything is going as planned. In connection with the idea of appointment of Pre-service Trainees, it is to be noted that priority cannot be given to all cases as certain villages may not have trained teacher to work at their school and it will be necessary to post some others from outside. Yet one may be posted to a particular school provided there is a vacancy.

It is pointed out that due to lack of Matching share of SSA, we have already lost large amount of fund and to a certain extent this is true. In this regard, it is to be noted that this problem is being faced not only by Mizoram but also by other states. It is somewhat difficult for the state government to contribute matching share of 25%. Fortunately due to the effort of our Chief Minister and if the 8 Education Ministers of North-Eastern states, a resolution was passed and submitted to the Union Minister. As a result, contribution to be made by the state government i.e. 25.1% is now being reduced to 10% and the rest 15% will be given by Donor Ministry much to the relief of the North-Eastern States.

The questions raised by Pu Rina about the condonation of certain under graduate teachers, that arrear to the concern teachers has not yet been fully given due to financial constrain. Regarding the reason for the difference of the amount of arrear, I cannot answer right now as I did not have a preparation for that question and I will look into the matter.

Relating to the demand of Hindi Teacher as pointed out by Pu Andrew Latherliana we have a long discussion with our Chief Minister on this matter. It is pleasing to learn that we are now going to have Hindi Teaching in Primary School which is to be sanctioned from the head of CSS. To cover 1187 Primary Schools in Mizoram, for the post of 500 Hindi Teacher 1st installment will be given and another sanction for 687 teachers will be made after the first group are recruited. Their pay will be Rs.6,900/-. As per instruction from the central, the applicants who had gone through interview will again face written test examination. It is hopeful that appointment will be given on the basis of Merit list. We expect to have 187 Hindi teachers within this year.

Thank you.

**S P E A K E R** : Starred Question No.47 and Pu, Lalduhoma to ask.

**PU, LALDUHOMA** : Mr. Speaker sir, here is my question for answer by the hon'ble Minister for Agriculture.  
(a). Amount Estimate for the construction of dam over Thuhruk lui of S. Zote ? (b). Whether the sanction is used for construction of dam of Tuichang river and not for the exact purpose? (c). Is this construction done by a contractor? (d). If so, who is the contractor?

**PU. H. RAMMAWI MIHSTER** : Mr. Speaker sir, (a) Amount estimate for construction of Thuhruk river is Rs. 4,13,000/-  
(b) The sanction is used for construction of dam of Tuichang lui, a tributary of Thuhruk lui. (c) The work is done departmentally and no contractor is involved.

**PU, LALDUHOMA** : Mr Speaker Sir, there are plain areas along Thuhruk river which are suitable for cultivation According to the latest survey, there are 50 hectares of land for cultivation. It is learned that Thuhruk river irrigation project is to be maintained as major irrigation Project, and expenditure for the construction is said to be only Rs. 40 lakh or so. But according to the report of MWDPR. Association submitted to the Director of Agriculture the amount sanctioned for the said construction is 45 lakh. The sanction was then used for Tuichanglui which can accommodate only two fields of cultivation and not for Thuhruk, which is expected to be benefitted not only by fields along that river but also through out Mat river. May the concern Minister please make spot verification and take necessary action in this regard ?

**PU R. LALZIRLIANA** : Mr Speaker Sir, irrigation work of Kawmzawl is done with the expenditure of 7.1 Crore rupees. It is learned that the level towards the bottom is 1 feet higher than that of the source of the river and this prevents flow of water. Whether the Agriculture Engineer are aware of this ? If so, is there a plan to repair the construction ? Whether the work is done by contractor or departmentally ? Who is the contractor ?

Regarding Bamboo Flowering which is expected to come on 2006, I opine it is necessary for the government to distribute seeds of early mature crops so as to wade the immediate effects in this relation. Since Agriculture is the Parent Department for BAFFACCOS, I opine that fund used in other departments should be reduced.

Thank you.

**S P E A K E R** : The concern Minister to answer the question

**PU H. RAMMAWI  
MINISTER** : Mr Speaker Sir, To answer the question of Pu Lalduhoma regarding Preliminary investigation of the irrigation Project, it is most convenient to call this project as Thuhruk Project and this river is supposed to be the source of this irrigation. During 2 years of processing estimate and sanction, the area of this river is greatly widened by 2 rainy seasons and the Preliminary and the Final investigation cannot be the same. On the otherhand, the river Tuichang locates within this area, and is a tributary to Thuhruk river and therefore decided to lay the project here without altering the original estimate.

**PU LALDUHOM** : Mr Speaker Sir, of the concern association made report and make an intense pressure to the government, it may be important for the Minister to prevail investigation.

**PU H. RAMMAWI  
MINISTER** : Hon'ble Speaker Sir, the complainants thought that Thuhruk river Project will not cover wider area. But after informing them the detailed work of the project, they, now know that Archanglui Project will have wider coverage.

Regarding supplementary Question of Tuimuk ram, we do not call it Tuimuk ram, but call it Tuimuk Project. It is financed by NABARD, but we have many factors to consider, so we had discussion with the farmers, one of the problems is that the area is flooded from time to time. We need more fund for flood control.

**PU ANDREW LALHERLIANA** : Hon'ble Speaker Sir, the truth is not like that. The fact is that the work of contractor is so bad that flood can't be controlled. The work is said to be completed by only Rs. 30,000/- whereas the estimate is Rs. 173,000/- It will be pleasing if the Hon'ble Minister examine at the spot and prevail reconstruction.

**PU H. RAMMAWI  
MINISTER** : Hon'ble Speaker Sir, The flood destroyed the junction point of the irrigation. That's why no water supply can be received by the field.

**PU R. LALZIRLIANA** : Hon'ble Speaker Sir, It appears that it is necessary to make alteration of the method. So that the member may understand the problem.

**PU LALRINLIANA SAILO** : Hon'ble Speaker Sir, the officers generally want to do things properly. But there are some contractor who they cannot control. By stating these, the officers may not be transferred I hope.

**PU H. RAMMAWI MINISTER** : Hon'ble Speaker Sir, it is true that the officers have things they cannot overcome, flood is also not within our control. The farmers too requested me to visit at the spot. I know the present position surely. The problem that we are confronted with is source of funding.

Hon'ble Speaker Sir, bamboo flowering is mentioned by the Hon'ble Ministers. I am ready to clarify about Tai. About one lakh of tin is readied for fronchase for free supply to the cultivators.

**S P E A K E R** : Let us call upon Pu Sailothanga Sailo to ask starred question no. 48

**PU SAILOTHANGA SAILO** : Will the Hon'ble Minister be pleased to state whether Government has a scheme for supply of sufficient drinking water in Aizawl City ?

**S P E A K E R** : Minister, Public Health Engineering Department Pu Tawnluia to answer.

**PU TAWNLUIA MINISTER** : Hon'ble Speaker Sir, Government of Mizoram has various schemes for attaining sufficiency in drinking water in Aizawl city. Among them, Greater Water Supply scheme Phase II is under construction.

**PU H. LALSANGZUALA** : Hon'ble Speaker Sir, regarding Phullen water supply scheme,-about hundred pipe has been lost at Pawlrang Village. YMA submit FIR to the Police. Will what is the Government with the pipes ? Will Government of Mizoram find out those pipes ?

**PU ZODINTLUANGA** : Hon'ble Speaker Sir, the Hon'ble Minister said that Greater Aizawl Water Supply scheme Phase II is the source of sufficiency in drinking water. If so, it appears that Aizawl will never receive enough drinking water. In 2002, Information Department noticed the people that Government of Mizoram shaws Rs. 130.47 Crores from Central Government for Greater Aizawl Water Supply scheme Phase II without state matching fund, while, the matching fund of 20% is provided in the C & AG Report. In 2006, 50% of the work of Greater Aizawl Water Supply Scheme Phase II is said to be completed. If so, it appears that no work is done within five years. Thus, the first question is will the Hon'ble Minister give the House assurance not to give false propaganda to the people ?

Secondly, will the Hon'ble Minister inform the House about the truth of Greater Aizawl Water Supply scheme Phase II ?

Thank you.

**PU LALDUHOMA** : Hon'ble Speaker Sir, It is learnt that Tuithum impounding Project is proposed by Public Health Engineering Department for water supply of Dawrpui Vengthar and its adjoining Villages. For this purpose -  
(a) Date of DPR preparation. (b) Whether fund is provided in the budget in this financial year ?  
(c) Time of expected commission of this project ?

**PU LALTHLEGLIANA** : Will the Hon'ble Minister be pleased to state-  
(a) date of water supply for Mamit from Tut river, (b) rate of water tariff ?

**S P E A K E R** : Let us call upon Pu S. Hiato, the Senior Member

**PU S. HIATO** : Hon'ble Speaker Sir, Water Supply pipe lines in many villages were broken by Public Works Department Workers. Many Villages have no water Supply. Who will repair the pipe lines? Secondly, what about water tariff at Lawngtlai? Thirdly, whether there is an additional water supply scheme for Saiha ?

**S P E A K E R** : Let us call upon the hon'ble Minister, Public Health Engineering Department to give answer the above questions.

**PU TAWNLUIA MINISTER** : Hon'ble Speaker Sir, Government of Mizoram does its best for self-sufficiency in drinking water in Aizawl city. Besides this Phase II

Tuithum Impounding Project in proposed to feed Aizawl West II Constituency. The Hon'ble Chief Minister too sees the scheme. It is expected that this Project will feed upto Luangmual, Tanhril Villages and Sakawrtuichhun. If this Project is commissioned, it is expected to produce 12 million litre of water everyday. As the Project is costly, we are looking for its financing agency like Asian Development Bank and Urban Ministry of the Central Government. Public Health Engineering Department view the year 2026 of Aizawl. It is estimated that 3,80,000 people will inhabit Aizawl in the said year. It is therefore estimated that 56 million litre of water will be needed in 2026. If Phase I & II is completed, 34.8 MLD will be produced everyday. Tuithum Project is expected to produce 12 MLD. Totally it 46.8. MLD. will be produced by these projects and another 10. MLD. will be met from Chite lui, Tuikual lui Tuipawl (Durtlang) lui. That is the plan made by Public Health Engineering Department for sufficiency in drinking water for Aizawl city.

Regarding wrong propaganda. This Government had never blamed or lied to the people.

**PU ZODINGTLUANGA**

: Hon'ble Speaker Sir, If they don't blame the people, isn't it this book issued by the Government. If this is not done by the Government who had done this? Truly speaking, it is done by the Government.

**PU TAWNLUIA  
MINISTER**

: Hon'ble Speaker Sir, It appears that the hon'ble Members must not deliver any speeches with a half knowledge only. We have Rs. 113.47 crores which has Administrative approval for Greater Aizawl Water Supply Scheme Phase II. A few days back, the department received Rs 13 crores which has expenditure sanction. I think it is clear enough. We have many problems to carry this enormous project. The gap of receiving fund from central Government is very wide. That's why, the work can't be in Progress.

Now, Rs. 1795 lakhs of State share is received. It should be admitted that the work of Phase II cannot be in progress due to lack of fund.

Regarding water pump Maxchine, the words spoken by the hon'ble Member is true. It is expected that only one large pump machine will do for Phase II. But mather Platts could not do it. This company can do the work only in India. We are informed that they will make two pumping machine instead of a large scale machine. Now, they are making the two pumping machines. The phase II is expected to be commissioned around 2006 - 2007.

Regarding Mamit Greater water supply scheme and Kawnpui Greater water supply scheme, the trial run is done. It is expected to be commissioned in April 2006.

Water tarriff is also asked. It is good to inform the House that water tariff is not yet /increased. The flat rate of Rs. 100/- per 3000 galon in a month is used now. The fitting of meter will not increase water Tariff.

Regarding pipelines broken by the contractor of Public Works Department road construction. It caused various difficulties in different places. We have understanding but we need better treatment of pipe lines. That is my answer.

Thank you.

**PU LALDUHOMA** : Hon'ble Speaker Sir, It is true that such problems occurred in many places. If so, it appears that some arrangement has to be made to avoid such problem in the future.

**S P E A K E R** : I had seen Notification issued by the Secretary Public Works Department indicating that a Committee is set up to supervise and to settle such problems. The copy is given to various departments. I think the problem will be solved by the Committee.

Question hour will come to an end after a few minutes, will we take two more starred questions raised by Pu S. Hiato and H. Lalsangzuala.

**PU TAWNLUIA  
MINISTER** : Hon'ble Speaker Sir, will I clarify all supplementary questions. I have not yet clarified about Saiha water supply scheme and supplementary question raised by MLA, Suangpuilawn. It is true that we are all concerned with this subject. In regard to Water Supply Scheme for Saiha and Lawngtlai, we cannot include huge scheme like this from our normal Annual Plan. We are still searching for source of fund. It had been noted down by the hon'ble Chief Minister. We know its importance Regarding the lost of water pipe near Pawlrang Village, we have not get received official report from the Department but we know it, investigation will be done.

Thank you.

**S P E A K E R** : Question hour is now over. Today, Pu Z.H. Ropuia, Hon'ble Minister and Pu Sainghaka informed me that they cannot attend session. We will go to the next business. Let us call upon Pu H. Vanlalauva, hon'ble Minister, to papers -"The Aizawl Development Authority Rules. 2005" and "The Aizawl Development (Master Plan and Zonal Development) Rules, 2005" on the table of the House.

**PU H. VANLALAUVA  
MINISTER** : Mr Speaker Sir, Thank you. Before laying papers I would like to mention for information that out of 553 Village Council's, only 7 Village Council's are still left, all other Villages have been resettled till today, Mr Speaker Sir, with your permission and with the consent of this House. I, hereby, lay "The Aizawl Development (Master Plan and Zonal Development Plan) Rules. 2005" and "The Aizawl Development Authority Rules. 2005 on the table of this August House.

**S P E A K E R** : Let the copy be distributed. Now let us call upon Pu R. Lalzirliana, hon'ble member and acting Chairman of PAC to present two Reports- "The 17<sup>th</sup> Action taken report of PAC relating to Power and Electricity Department" and "The 18<sup>th</sup> Action report of PAC relating to Rural Development Department" in this House.

**PU R. LALZIRLIANA** : Mr Speaker Sir, with your permission, I, hereby present "The 17<sup>th</sup> Action taken report relating to Power & Electricity Department" and "The 18<sup>th</sup> Action Taken report relating to Rural Development Department" in this August House .

Thank you.

**S P E A K E R** : Let the copy be circulated to the members. Now, we will call upon Pu H. Liansailova, hon'ble member and Chairman of subject Committee IV to present the 1st Report of subject II Committee 2006 -2007 in this House.

**PU H. LIANSILOVA** : Pu Speaker, with your permission and with the consent of this House, I, hereby, present the "First Report of subject IV Committee" This Report is related to Trade & Commerce particularly border trade. Mr. Speaker Sir, I, on behalf of subject Committee, would like to express my thanks to the Chairman and other members of this Committee during the previous term. This Report can be prepared only because of their hard working efforts.

**S P E A K E R** : Let the copy be circulated to the members. As we know that Subject Committee works very hard on behalf of all of us. It is important for the Ministry also to cooperate. Now, we will go to the next business which is Legislative Business. Let us call upon Dr. Lalzama hon'ble Minister for Higher & Technical Education Department to beg leave of the House to introduce "The Institute of Chartered Financial Analyst of India University Mizoram Bill, 2006 in this House.

**Dr. LALZAMA  
MINISTER** : Mr Speaker Sir, with your permission, I beg leave of the House to introduce "The Institute of chartered Financial Analyst of India (ICFAI) University Bill 2006" in this House.

**S P E A K E R** : Let him introduce now.

**Dr. LALZAMA  
MINISTER**

: Mr Speaker Sir, I, hereby, introduce "The Institute of Chartered Financial Analyst of India University Bill, 2006" in this House.

**S P E A K E R**

: He has now introduced it. The copy has been circulated earlier. Now let him move it for consideration.

**Dr. LALZAMA  
MINISTER**

: Mr Speaker Sir, Thank you. As we all know that the Institute of Chartered Financial Analyst of India University is an University of

Technical and Management course. In the beginning, Professor Biplab Halder, a member of an Initiative Group came from Hyderabad and approached me first. I told him that we need time to study the project. When we study the same, we were satisfied. They would establish themselves in Mizoram with their own expense. We took advice from the hon'ble Chief Minister and we sent expert team formed by Dr. L.N. Tluanga, Dr. C. Biakmawia, Pu Lalrochuanga and Dr. H.L. Malsawma. When they have on the spot study at they advocated to allow them to establish themselves in Mizoram. This University now has 14 business schools and 138 study centres in India. Besides, it has 6 Institutes of Science and Technology, 5 centres of Information Technology and 140 Colleges. Uttaranchal, Sikkim, Tripura and Meghalaya states have passed Bills to allow ICFAI University to establish themselves in their states, even Uttaranchal state has had a recognition from U.G.C. ordinance is still being prepared in Himachal Pradesh State. Those who study in this University are engaged by many companies even before they complete their course. It also has close relation with companies in India and abroad. To introduce this University in Mizoram we need to pass this bill first.

If we look at the bill we see that courses like Accounting, Financial Analysis and Management, Business Management, Applied Science & Technology, Education, Medical Sciences are there. Of which we want to open Medical Sciences as early as possible. Therefore, steps will rapidly be taken to get recognition from U.G.C. So that we can start various medical courses shortly. To approach U.G.C. We need to pass the Bill first.

The main objectives of the University is to provide instruction, teaching, training and research in specialised fields of Finance and Management including Financial Analysis, Accounting, Banking, Assurance, Financial Services, Financial management, Business Management, Law, Education, Medical Sciences and Technology. To start the institution B.B.A. course is now introduced first and 42 students are there this year. Other courses will be started next year.

Regarding the structure of this University, U.G.C. norms will be followed, Accreditation will also be obtained from National assessment & Accreditation Council. It will have office of Chancellor, Vice-Chancellor, Registrar and Finance Officer. The Governor of Mizoram will also be a visitor of the University. The University will have Board of Governor it. The Government of Mizoram will appoint Representatives. I think that we all have studied this Bill earlier. So, I opine that, it will be no need to explain in detail. If we have problem in the wording of the Bill, questions can be raised and answers will be given as much as we can. Mr. Speaker Sir, I beg leave of the House to consider my Bill and to pass it Unanimously in this House.

Thank you.

**S P E A K E R** : We have listened good definition of the Bill from the hon'ble Minister and mover of the Bill. As he said, this Bill is very important to give bright future to the youths. We will consider it now. As is our usual practice, can we satisfy with 10 Minutes each? If so, 10 minutes will be given to each member. Who will start first? Yes, Pu Andrew Lalherliana.

**PU ANDREW LALHERLIANA** : Mr. Speaker Sir, Thank you. From the Introductory speech of the hon'ble Minister, this University may be called. Business School since its objectives are mainly concentrated on Business subjects like Accounting, Financial Analyst & Management, Business Management, etc. The name of this bill is very long to pronounce. So, Let me call it ICFAI in short. First of all, I would like to express my thanks to the hon'ble Minister for his untiring efforts. I also hope that it will be very important to solve unemployment problem in future, as we know that we have many educated unemployed in Mizoram. Mean while, the policy of the Government is mainly to minimize Government jobs. Therefore, those who study in our normal schools and Colleges cannot get jobs. We need other institutions like this to solve unemployment problems.

We may not be aware that business houses have been increasing in India since the economic reformation in 1991. These business houses provide endless jobs to there graduated from business Universities. India acquired fame in the field of business schools. In India the best business school is 11<sup>th</sup> and the one Under discussion ICFAI stood 14<sup>th</sup>. Anyhow, 14<sup>th</sup> is good enough in a country where there are over 1700 business Universities, whereas we all satisfied that ICFAI is good enough for Mizoram, neighbouring State Meghalaya has already established 11 M. which which is no. 1 in India. Let us hope that our abledyouths from Mizoram will have exposure through ICFM.

In regard to the bill itself, there is one point that may better be modified. In section-9, it says that 'The University shall be open to all persons irrespective of class, caste, creed, religion, language or gender :-

Provided that nothing in this section shall be deemed to require the University from making provision for admission to students of the State". If my intepretion is correct, there can be no discrimination for admission to the University and no special admission can be provided to sons of the soil. Therefore, the wording may be changed so that special provision could be made for the Mizos or at least 50 percent of the total seat could be reserved for the Mizos.

I would like to commend on the mover of this Bill for his openness. Before he introduce the Bill, he summoned a Consultative Committee to discuss the Bill. With the assistance of the experts we, the opposition members who are also the members of the Committee were given detailed explanation of the Bill. We were also informed to contribute one ideas. In this regard, I would like to express my gratitude to the Minister for his support to the opposition members. For this reason we have no choice but to support his Bill. Another pleasing matter is to see that the State Government do not have to make any financial contribution for this University. Therefore, I support this Bill and should be passed unanimously.

Thank you.

**PU LALDUHOMA** : Thank you, Mr. Speaker, At the outset, I would like to convey my gratitude and respect to the concerned Minister for his openness to seek advice from the opposition Members for the materialisation of the Bill. Coming to the Bill body I think there are certain points which needs to be clarified. On Section 3 we find that "An application containing the proposal to establish a University shall be made to the State Government".

Again on Section 3 (2)(j) we find cases concerning rebates in fee, freship and scholarship for students belonging to economically weaker sections. However, there is no specific mention of the extend the concession is to be given to sons of the Soil. This point may be noted by the Minister for clarification.

It is also desirable if the Bill contain provision regarding placement assistance for those graduates from the University.

There is also no mention of the preference to be given to residents in the non-teaching position. It would be appreciated if this point can be taken into account.

As stated by the Member from Khawzawl, the priviso on Section 9 appears to contradict with that of the provision in Section 8 (g). This point may also be checked for fear of future problem.

I would further like to emphasize that it is time for Mizoram to incline towards Centre for enterpreneurship development and Business School as privatisation has taken more and more places in the State. Under the heading 'Statutes how made' at section 27, we find that the first statutes should be submitted to state Government for its approval. However, our Section 28 (1) it says that the Board of Governors may make new or additional statutes or amend or repeal the statutes. Mr. Speaker, it may be more secure if any additional statutes or amend or repeal made by the Board be sent to the State Government for approval.

Again on Section 30, there is provision for the making of Rules. Though Section 30 provides that the Board of Governors should make Rules, Section 31 provides that the lower power which is Academic Council may make new or Additional Rules or amend or repeal the Rules with the approval of the Board. I think this is a big loophole. Generally, I find the Bill quite good and should be passed by the House.

Thank you.

**S P E A K E R** : Let us call upon the Minister for School Education.

**Dr. R. LALTHANGLIANA  
MINISTER** : Mr. Speaker, I am glad that this Bill has been introduced in the House today. I would further like to express my sincere appreciation to the members for their support and effort for the materialisation of this Bill.

For the University itself, while there are many private Universities that have been derecognised we are fortunate to have prominent University like ICFAI. Further, we are now able to enrol within our State and save money. As already stated earlier, ICFAI provides only Management course and it is like multi disciplinary study Center. As it provides multi Management courses it has easy job access. I think there is nothing to be anxious about in terms of placement.

There are hundreds of MA/BA's who can not find job within the State. In the meantime, those who completed course from ICFAI would not face difficulty in job. Thus, we did the right thing in welcoming this ICFAI University.

Therefore, Mr. Speaker, we should pass this Bill today. There may be certain points that needs to be corrected or changed. I agree that it is not an easy task to make it Satisfactory. Let us presume that amendment can be made later. So, I say that I support this Bill for passing.

Thank you.

**PU LALHMINGTHANGA**

:

Thank you, Mr. Speaker, First I would like to say I that the MPC Legislature support this Bill. As heard from the member from

Khawzawl, the concerned Minister had sought the advice and support of the opposition members prior to the introduction of their Bill.

We have discussed the matter within the party and have supported ICFAI. As we are all aware that, with time, regular conventional academy is not enough for our youth in seeking job opportunity. As it is, the government is facing great problem in post creation. The various management courses that ICFAI offers are courses which our state requires. As the hon'ble Minister have mentioned, the allotted seat for Medical science is very limited at present, therefore if ICFAI could offer such Course, it will prove to be a great leap of development. From the report of the experts, students passing out from the various courses are guaranteed job, within the country and abroad. This is what the state needs to solve the various problems faced by the state at present.

As for the ambiguity of the rules, members before me have pointed out the points. However, I would like to point out the financial memorandum. As high lighted in the financial memorandum, the state has no financial contribution it will be wholly funded by ICFAI. If it is financially autonomy and self-sufficient, it seems that we will be entirely the beneficiaries. This pricks me to a certain extent, as I have a little doubt. I request the hon'ble Minister to classify in the wind-up speech.

Pu Speaker, from the statement of objects and reasons, it is very convincing. The unemployment problem will be solved. As the management course will be job oriented, privatisation policy will also be successful. As the nation as a whole, the country's I.T. is booming in the international market, its product, man-power and materials. Therefore, this is a satisfactory Bill, which the House must pass.

Pu Speaker, as we are all aware, we do not have chartered Accountants, various organisations and the churches face great difficulties. But with this ICFAI, we will have qualified chartered Accounts to audit the Various organisations and churches. Therefore, I would like to state that, Our Legislature party give full support for this bill.

Thank you.

**S P E A K E R** : We will now call Pu Khawpuithanga.

**PU R. KHAWPUITHANGA** : Pu Speaker, thank you. This is a very satisfying bill. All the members who have discussed the bill voiced for the bill. In spite of the high quality and job oriented course it will offer, the state has no financial Contribution. The conventional academy is not applicable to the present time, to solve the problem of unemployment. Therefore, this bill is a convincing bill, which the House should pass.

However, as pointed out by the hon'ble member before me, as per the memorandum, it will have financial autonomy and self-sufficient. But, I was wondering how could they make such an offer, when they will not be making any profit. The statement of objects and reasons is quite satisfactory. Pu Speaker, I would like to point out that, Right to Appeal at under chapter-6 needs careful study. The complain that the student have could be finalised by the Board of Management which is difficult to understand. Any way, I give full support for this bill and request all members to pass this bill.

Thank you.

**S P E A K E R** : We will now have a break, and meeting will resume at 2 : P.M.

**Meeting Adjourned 1 : 00 P.M.**

**2 : 00 P.M.**

**S P E A K E R** : We will move on with our business.  
Pu H. Liansailova.

**PU H. LIANSILOVA** : Pu Speaker, Thank you. Senior members have discussed the bill, but there are certain points. I would like to highlight. It is good to know that the government has taken preventive measures, and set up expert Committee, collecting whatever information requires. It is also pleasing to note that, the opposition members are enlightened with all the information. Personally, I am delighted to have such a bill.

As, we all know, conventional education is not enough, therefore this will take us to a new height and solve the problem. However, we should prepare ourselves in receiving the University to maintain the quality of the Education.

Regarding rules section 8 gave the provision that, students within the state will be given special provision in admission. However, in section 9 2nd proviso, there is a provision which goes against provision 8. Therefore, this section should be repeated. If not, instead of 'To require', 'To bar' should be used, so that it will not go against section 8. The Minister should look into this. It will read as follow, 'Provided that nothing in this section shall be deemed to bar the University from making special provision for admission to students of the state'. In this way, we will be savegured section 26 - stated that status and Rules will be constituted by Board of Governors. But what I would like to request is it should be added this that, 'it requires state government approval'.

If we move on to section 31- it is stated that -Acedemic council can amend the rules with the approval of the management, which means the Acedemic council can amend the rules from time to time. This is not an usual practice. Therefore, the Minister should clarify, since the wordings and the principals varied.

Pu Speaker, I look forward to this University provided that the information given is correct. I therefore support this bill. However, whatever, technical mistakes that needs to be taken care of should be done accordingly. Thank you.

**PU LALRINLIANA SAILO** : Pu Speaker, thank you. The Minister is careful, and it is pleasing that the Minister seeks the opinion of the opposition members. The University seems to be satisfactory, but we should be careful. In Mizoram there are certain Institutions that has been introduced, which looks attractive in the biginning but later proved to be otherwise. From the book of Proposal submitted for the establishment of the ICFAI University in the state of Mizoram, it is stated that, to provide Mizoram with high quality specialized education which can relocate and generate a large number of 21st century jobs by the state of Mizoram which are coming up in the service sector in which ICFAI specialized. It is very assuring indeed, and looks to open doors to our youth generations or will it prove to be as it offers itself? There is a question, whether, it is recognised by UCG. as well?

Anyway, Mr Speaker, if the Board is formed, will there be a way to provide maximum admission to students of the state ? I would like to point out that chapter III and chapter IV should be safeguard for clean and fair appointment. Pu Speaker, I would like to know, if scholarship to students will be given by the government ? I am a little apprehensive that, all these will not be carried out as it ought to be; Otherwise, I trust the hon'ble Minister and his abilities and I believed that it will be a satisfactory institution. However, the government should be careful and safeguard our interest and take careful steps. I wish it will be a successful University. Thank you.

**S P E A K E R** : Pu Sailothanga Sailo.

**PU SAILOTHANGA SAILO** : Mr Speaker, thank you. First of all, we have two Universities, Mizoram University and central Agriculture University. We have no voice in these Universities, we the members should make questions in the House regarding these Universities.

University. It is pleasing that, there will be a course for, PHD, M.B.B.S., BDS, BSC.(Nursing) Personally, there is a great satisfaction within, as it is that we are facing unemployment problem. With ICFAI. our Youth will be able to work in Industry and company.

Pu Speaker, 4/5 lakhs of Rupees, will be required to complete the course. This is a huge amount as per our economic situation. There will be many students who face this problem. I therefore, request the government to bear this in mind.

Lastly, I hope and belived that, ICFAI. University will prove to be an opening for our youth, I wish for its success, and support that, this bill should be passed.

Thank you.

**S P E A K E R** : Pu Sailothanga Sailo.

**PU SAILOTHANGA SAILO** : Mr Speaker Sir, thank you.

**S P E A K E R** : We will now call the hon'ble opposition Leader.

**PU LAL THANHAWLA** : Pu Speaker, First of all, I would like to thank the concerned Minister for seeking the confidence of the opposition members. In the meeting that was held, all the details was discussed, we were enlightened with all the proceedings and we were told how assurance was given by ICFAI. Authorities to out visiting team of experts. All the questions were clarified at the meeting. I therefore, sincerely thank the hon'ble Minister for his approach.

The cenctral University's management and administration is Unsatisfactory. Pu Speaker, the procedure of appointments and the possession of land is disappointing under the Vice-Chancellor. Therefore, as we gave experienced such disappointment, in the previous University, the government should be careful that such an act is not repeated. The government should take careful steps and make sure that the proposals are implemented accordingly.

Regarding Finance, in the conclusion of Financial Memorandum it is stated that, there is, 'therefore no financial involvement from the state'. However, we must be careful, from bad experience we have had from previous Financial Institution. The government should also take Special care in regard to affiliation and recognition. Before, this University is born, every account should be taken care of. On the principal as a whole it is satisfactory. In the case of VAT., we were clarified, but after it was implemented, it was not as we were clarified. Same case with MIP. If it proves to be as we were clarified by the Minister and team of experts, We support this bill.

Thank you.

**S P E A K E R** : We will now call House Leader.

**PU ZORAMTHANGA  
CHIEF MINISTER**

: Pu Speaker, just few points. The hon'ble Minister will clarify later. It is pleasing that every one who lays their hand in this ICFAI

University Bill 2006, gave their utmost effort. As we are in a hurry, it is decided that university should be established by an ordinance, after consultation with law and expert team.

As we have heard earlier, it is an open door for job oriented Education. All members agreed with the bill, except for some technical reasons. We cannot expect the bill to be 100% perfect, at first, Amendment can be made from time to time. As for section 9 section, let us expect, the hon'ble Minister to clarify. Pu Speaker, as I go through and as per my understanding, I do not see that it goes against each other. Pu Speaker as I read the bill, it is written 'Institute of chartered Financial Analysts of India University (Mizoram) bill, 2006'. It is written 'bill', this must be a mistake. I would like to request you to clarify. Any way, members agreed with this bill as it is an open door for our youth. Therefore, it would be pleasing if we can pass this bill today.

Thank you.

**S P E A K E R**

: We will now call the hon'ble Minister to clarify and wind up the discussion on this bill.

The bill if passed in the House will become an Act, after Governor gives his assent. After the Governor assent, the concern department will notify it in the Gazette. I do not see any harm in the wording. Dr. Lalzama.

**Dr. LALZAMA  
MINISTER**

: Pu Speaker, there are various points that the hon'ble members questioned for clarification. Members question that section 9 contradicts

section - 8 (q), I would like to clarify that the wordings in section 9, 'The university shall be open to all persons irrespective of class, caste, creed, religion, language or gender' confirmed the wordings of section 8(q).

As for question raised regarding section 28 and 31, whether it contradicts each other, section 31 is rules, where as no. 28 is status.

**PU LALDUHOMA**

: Pu Speaker, No 27 stated 'statutes' where as No 28 stated, 'amendment' It is not rules it is different subject. Before, amendment, the

state government is to give approval. Well it be right to give approval before amendment? Amendment should be made and then submit for approval. Where as No 30 stated the procedure of amendment of Rules Board of Governor will amend the Rules and submit for the approval of the government. Later with the permission of Board of Management, Academic council can repeal the Rules. There is no provision which requires the government's approval if the Rules is repealed, as modified, therefore, it is not safe.

**S P E A K E R** : We have two Universities, which managed by themselves. State Assembly will pass an Act. As procedure of the House the Rules or Act that is passed in the Assembly should be laid in the House. Therefore, if Rules are made for ICFAI university by various boards, it has to be laid in the House, as it is under the provision of Assembly Act.

**Dr. LALZAMA  
MINISTER** : Pu Speaker, it is written in this section.

**PU LIANSILOVA** : Pu Speaker, I am not clear as yet. Rules 29 provide authority to Board of Governors, however Academic council practise this authority. Is this a mistake? The principle itself is wrong, Rules making power is not entrusted to Academic council. There could be problems in future.

**Dr. LALZAMA  
MINISTER** : Pu Speaker, In section 49, "statute or Rules made under this Bill shall be laid as soon as may be after it is made, on the table of the "Legislative Assembly". There is this provision, therefore it is clear that it has to be laid in the House. Under Board of Management, there will be representative of the government.

**PU H. LIANSILOVA** : Mr Speaker, I think the principle that the Board of Management may have to approve now or additional Rules or amend or repeals the Rules is not right. Therefore, the wording 'Board of Management' may be changed as 'Board of Governor'.

**Dr. LALZAMA  
MINISTER** : Mr Speaker, that may be checked for it might be a typing error.

**PU LALDUHOMA** : Mr. Speaker Sir, it may not be appropriate if another, body has the authority to alter, amend or repeal the rules already approved by the State Government. Thus, the wordings should be read as 'The Rules so altered or so amended or so repealed shall be submitted to the State Government for approval'.

**PU ZORAMTHANGA  
CHIEF MINISTER** : Mr Speaker Sir, the point under discussion has been provided in Rules 30.

- Dr. LALZAMA MINISTER** : Mr Speaker Sir, that is what I meant to say. I think the wording on Rules 30 that 'subject to the approval of the State Government may be added at the end of Rules 31'.
- S P E A K E R** : We are looking for the best wording now. Do you agree to alter the wording 'Board of Management' into 'Board of Governor'?
- Dr. LALZAMA MINISTER** : There will be no harm done if Rules no. 30 is to be referred.
- S P E A K E R** : It seems the changing of Board of Management into Board of Directors is more appropriate.
- PU LALRINLIANA SAILO** : Mr Speaker, I would like to extend a few point 3 on Rules no. 20 which states that 'The Board of Governors shall consist of The Chancellor, The Vice Chancellor, Three persons nominated by the sponsor and one representative of the State Government etc. Mr Speaker Sir, only one representative from the State is rather small. If possible, More State representative should be included in the Board of Management.
- Dr. LALZAMA MINISTER** : Mr. Speaker Sir, on section 47, it says that 'on identification of mismanagement, mal-administration, in-discipline, failure in the accomplishment of the objects of University, the State Government would issue directions to the Management system of University. If the direction are not followed within such time as may be prescribed, the right to take decision for winding up of the University would vest in the State Government. As stated by the Speaker, since this Rule is passed by the State Government the final decision should also be made by the same. Again, on section 49, it says that 'Every Sstatute or Rules made under this Bill shall be laid, as soon as may be after it is made, on the table of the Legislative Assembly'. Also on removal of difficulties, the State Government has authority. Mr. Speaker Sir, I would like to inform the House that we are very cautious in making this Bill that Senior Advocate and Advocate General from Guwahati are also consulted. After the Bill is passed, UGC. recognition would be applied after which the UGC would do verification whether an University is established. Only then that recognition could be obtained.

As we have already know, the University was established through an Ordinance. Presently, there are 42 students doing BBA course and 4 lecturers. It is also proposed to open B. Tech and MBA course. The State government has been enquiring into the infrastructured development required for incorporation of the University. As for the land, the Rules provides that the existing provisions of the Mizo District (Land & Revenue) Act, 1956 and Rules 1967 shall prevail.

There is also proposal to reduce the fees for the North-east people.

As already stated by the members before me, this institution is established by the sponsor without any profit. Therefore, We should just sit tight and accept this great opportunity. And, I agree with the House Leader that the first part of chapter I should be read is 'This Act' and not 'This Bill'. Hence Mr. Speaker, I request this august House to pass 'The Institute of Chartered financial Analysts of India University (Mizoram) Bill 2006'.

Thank you.

**S P E A K E R**

: The hon'ble Minister has worned up the discussion on the Bill concerning ICFAI University. As provided under our. Rules 202, correction would be made on Section 31 provided that the Mover address. Anyone who agree to pass

Section 3-51 which is the body of the Bill may say 'Agree' well, the House passed Section 3-50 unanimously.

The wording 'Board of Management' on Section 31 may be altered as "Board of Governor". The wordings 'subject to section 30' should be added to the end of Section 31.

Now, we shall take voice vote on Section 1 short title and section 2 definition. (Members passed.). We shall now take voice note on the preamble and exacting formula. Those who agree to pass may say 'yes.' (Yes). (Members agree to pass) The House unanimously passed 'The Institute of Chartered Financial Analysts of India University (Mizoram) Bill, 2006.

The House will have a recess till tomorrow 10 : 30.

Sitting adjourned 1 : 10 P.M.
