: Pu Speaker, ka lawm e. His excellency, the Governor of Mizoram delivered his speech here that day. As we all know

we had boycotted the speech. However, I would like to participate in the debate today. Pu Speaker, first of all, I would like to point out paragraph 42 of this Speech - page 21. He said that "My Government has made utmost efforts in ensuring economy by curtailing wasteful public expenditures. Among the measures taken are ban on creation and filling up of posts and restrictions on tours and travels outside the State by Government Officials, floating of innovative rules and schemes like the privatisation of Government vehicle schemes, the Mizoram (special loans for purchase of Car) Rules, 2001 and special voluntary retirement scheme for Government Drivers, Handyman and Despatch Riders. My Government has also taken bold steps to generate additional resources by widening the tax base and by upward revision of fees taxes and tariffs", I think this is the old spirit of the speech that how his Government is running and how his Government is ambitions to run. Mr. Speaker, Sir, I would like to point out that, while the Hon'ble Governor is very much concerned that his Government should curtail wasteful expenditures. I would like to mention that his excellency has been extensively touring throughout the state with lots of officials, Government servants, almost every where after a very two or three months. Is there are no involvement of expenditure? In one hand we are totally expenditure by banning tours by the officials, but at the same time the Head of the State is not respect himself. Is it the administration that we are to get. In a very Village.

Chief Minister chu khatiang Sorkar thil kha the Government programme Budget-ah a tel loh chuan a sawi theih nang. Fu Speaker, I think the speech had to be scrutinise thoroughly because it has many hidden agenda just like to mention that my earlier coleage Fu Hlan Hon'ble spoken that in para-II page 9 Fower Department apart from this, I am happy to note that the Fower Department is on the path of undertaking reform measures to improve revenue collection and to cut down losses. Towards this end, my Government will besigning an MoU with the Government of India giving various milestones of reform. In return the state will receive financial assistance from the Government India what is this memorandum of understanding I think I should rather demand. Clarification from there Hon'ble Chief Minister will be wounding up the debates.

Mr. Speaker Sir, we have debated for longtime about the signing of Memorandum of Understanding on 8th April, 1999 between Government of Mizoram and Government of India, the Finance Ministry and according to that Memorandum of Understanding. So many time has been imposed, recruitment has been banned, This is Memorandum of Understanding ? Everything is there. This is Memorandum of Understanding you are signed with Government of India. That also is there 8th April, 1999. What is the Memorandum of Understanding you are going to sign again you are will be looking the Public you will be expecting whatever possible from the public without giving anything to the public. Now you are coming Mipui inbumna project(MIF). What is the logic after bringing such a project agter 3 years of you reign. Hon'ble Governor said, this is the sale tax regeme. Taxation Department sawinaah khan, para 31 page 17. Hon'ble Governor has I think related to mention the number of goods have been taxed here. you only said at notified good of which the higher income group are the end users. A frw notified goods a ti ringawt a ni. Item engzahnge sales tax lak a few a ni lo. tam tak a ni. May be more than a hundred, hundred fifty. Why has the Hon'ble Governor mentioned only a few notified goods ? A few notified goods of which the higher income groups are the end users have been made taxable under the new sales tax regime a ti. This is the sales tax regime, this is the tax regime. You are looting the public. from the public pocket without giving them anything. What have you given the public so far. And ultimately uou are coming out with mipui inbumna project. You remember your election manifesto. Sales tax la lovang in ti si a. An ti si a. Fu S peaker, mahse an la si a. Engeni an policy ? Passion Fruit an ti ! Khur laiha buh chin an ti ! Bamboo an ti. Bamboo chungchang hi ka la sawi dawn a ni. Fu Speaker, in the Governor's speech para 10 page No.6 'My Government also intends to sent up a joint venture industial unit in technical collaboration with private firms based in Calcutta for production of

Bamboo floor boards for which Memorandum of Understanding (MoU) has been signed recently ! While the Hon'ble Governor has mentioned private firm why don't the name be mentioned here ? PU M.K.CHAKMA

: Pu Deputy Speaker, ka lawm e.

Today we are discussing the motion of thanks of the Governor Address. As we know day before yesterday, this is first time in the political history of Mizoram that we have boycotted the governor speech due to certain actions which are really politically motivated.

Governor's speech kan sawi a nia, lo tibuai suh. It seems Governor is acting like a administrative head and not like a constitutional head. Pu Dy. Speaker, If we see in the para 5 of the Governor Address. It is said that the Government has launched an ambitious project known as Mizoram intodelhna project assuring self sufficiency and reducing poverty in rural areas. I am having a doubt about this project. Because having been completed 3 years in a power, it could not achieve self sufficiency in food. How can it achieve sufficiency within a year and this project. I think it is an Election campaign bonanza of this Government. Pu Deputy Speaker, Hei Congress Sorkar lai, ka bialchhung sawi ta ila, Congress Sorkar lai in Tlabung mipui in Balu hi phurh ngailo, mahsetun Sorkar hnuah mipui in eizawn nan Balu hi phurh a ngai tawh a ni. This is very serious, because Rural area is not given importance. So, the Government is not taking any interest in developing in the rural areas. I am having a doubt about this Mizoram Intodelhna Project.

The Government has given priority to the development of border trade at Kawrpuichhuah which falls within my constituency. But it is regretted to say that the government has kept me in a dark place.

I have not been informed about any decision and even what progress has been made about the border trade. I do not know anything about the border trade. Only in the Governor's address I found that a sum of Rs.2.00 crore has been sanctioned by the ministry of commerce for this purpose. But in reality nothing is there. Nothing is found. Where is this money. It is lying just like that in the department or what? No work, nothing has been done till now. Moreover it is surprising to know that this government has submitted a project proposal of Rs.8.20 crores for the development of Rihdil. Rihdil does not fall within India. It is in a foreign country. Why doesn't the government submit a proposal for the development of Tlabung? We cannot develop foreign land. This is a matter of great shame. Even in para 17 of the Governor's Address it states that the government will be signing MOU with the govt. of India. I think there is some hidden agenda. As we know on 8th April, 1999 it has signed memorandum of understanding with the government of India by which it has increased power tariff, water tariff, even land revenue tax. Without thinking about the common interest of the people the government is putting burden on the common people. by signing a memorandum of understanding again for getting financial assistance. Pu Dy. Speaker in 19 para the Governor Address the Planning Commission had recently sanctioned Rs.5.00 crores under BADP scheme in BADP scheme also the work are not properly implemented and even most of the work is incomplete. money had been only released without completing the work. This is the condition of BADP scheme. in my area

And in the para 20 the Governor Address it is said a CT Scan has been procured for Aizawl Civil Hospital to improve Hospital Diagnostic facilities. If I am not mistaken, there is no building for installation. If it is lying uselessly without installations the machine may get spoiled very soon.

Pu Dy. Speaker lastly, I want to speak regarding the para 42 my Government has made out most efforts in ensuring economic by curtailing wasteful expenditure. But is we see Governor travelling at the length and breadth of the State unnecessarily without any work.
