PU NIRUPAM CHAKMA

: Pu Speaker, ka lawm e hei bak chu pello hram ni sela, Hon'ble Member admit the Motion of thanks on the Governor address. I would like

to react to some of the points only to the in broad, Pu Speaker, regarding the deficit of current year budget we all know that it was stated earlier by earlier finance Minister also that 79.36 crores is our opening deficit. In the Governor address in para 3 restated that 60 crores liability is remaining for the works and Schemes. I would like to demand from the Hon'ble Chief Minister and the Leader of the House here that whether this 60 crores is upto date or the amount the liability incurred had been paid partly to this one is not clear to us. As far as our knowledge goes some of the amount kept in the 'K' deposit was already clear and some portion of the amount still remain to be paid for against the work already completed. So, whether this 60 crores as shown in the Governor address is to be paid till today or what is the actual figure of liability. Hon'ble Chief Minister may

kindly clarify. In addition to that the state has availed special ways and means advance amounting to Rs 62 crores. From which 8 crores had been already paid upto date in the Governor address and 54 crores to be paid before the end of March 1999, Mr Speaker Sir, I think, the Government its in a tide polution and mean advance could be taken up to 16 crores but division special weight and mean advance given to the Government of Mizoram, Government and the amount to be repaid within to financial year. I hope did you could current financial year some of the Hon'ble Member mention that the present Government as you office financial cruisis but some extend Hon'ble Member kindly paragraph 4 the Government of Mizoram Congress Government on the 100 crores under plan pesent here 233 crores still remain the seat cover and the 233 crores previous Congress Government will be spending by the Government a sume of pice with the 3rd December this plan is very, that the previous Congress Government that not to be created before the public of Mizoram therefore the financial cruisis the problem mention by previous Member Hon'ble Member I will like to point out not and using because during the year Mizoram and the MNF Party has formed the Government during the 2 years, rule 59.47 goes up to this time now, the opening deficit itself is 79.36 crore here is a statement Annual sub towards by the formal Finance Minister 1987,88 closing deficit was 53.41 crore 1988-89, 59.49 crore that was during MNF Government. In 1989-90, 80.35 crore 90-91 32.74 crore it is come down, 91-92 53.90 crore 92-93 34.33 crores. In 1993 to 94 Congress and MJD formed the Government Hon'ble Finance Minister is presented the Budget that time the closing date is 31.92 crores the figure come down because during one months is time 30.33 crore advanced was giving to as, otherwise the closing deficit would have gone to 62.25 crore. 94-95 it was 27.25 crore, 95-96 53.32 crore 96-97 76.79 crore 97-98-39.35 crores and during this 98-99 closing deficit was as stated earlier as 79.36 crore. So one should not get the impression that the deficit sudgeting system in our state is a new thing it is being going continuously and it should be our endeavour how to solved with problem. In our side I would like to present our Government that will be fully co-operating with you in printing out fining a solution and I'm very happy that the Governor has mentioned that Mizoram peace accord through the Central Government may removed for helped in this regard Mr Speaker, Sir, I would like to mentioned 30 July '98 I previous Chief Minister has already approached the P.M. of India, having July 1998, our previous Chief Minister Pu Lal Thanhawla has already approved the P.M. of India to write up whatever the Mizoram is having and also to give up 150 crores grand-in-aid. So, that we can the Budget Mizoram budget would be .. and we can take up no rescue.

Mr Speaker Sir, the actually the Governor has mentioned the State had to make future... resource mobilisation. The Government... mobilisation I think the other day, Hon'ble Chief Minister I think... Vanapa is mention that he will not be an... power and water... and.... previous Congress Government and also no invested to take Central I would like to clarification from the Hon'ble Chief Minister lay down.

The present Government will not actual enhance the water and Electricity... and also whether the Government will not actual collect census. Because this is important regarding the ... resources mobilisation or previous Finance Minister had guide his... and his prevention that public meeting in Delhi or with Planning Commission he had... to make accord for recess mobilisation within the State. Mr Speaker Sir, it is not the surprising I say that. Unless internal mobilisation the Government of Mizoram has no alternative to collect the resources. Suppose to ... because in the Government.... Stated that the State has.... 30 crore of rupees, so that we can... the annual plan provision of rupees 333 crore annual plan for... is Rs.333 crore besides that provident fund and outlay of amounting to 23 crore... project. All these include the annual plan of 1998-99, Mr Speaker Sir, it is very surprising that the Government of Mizoram as per the Governor's address will identify new ways of raising resources, what is this new ways of raising resources ? Unless you collect something from internally you are not going to raise anything you are not going to collect in other states, I think Mizoram is the only state... including so far we tried to introduce in the earlier year but due to the opposition from the ... opposition, the Government has to do away with the introduction and the Government could not introduce it. Mr Speaker Sir, what is this new ways of raising resources ? Hon'ble Chief Minister may kindly clarify this.

It is also siad that introduce new economic system in the State. What is this new economic system ? The people of Mizoram would like to know in what direction this new economic system will lead/introduce. It it the economic system that purely depend on the public as per the presentation here. I am convinced that the Government will purely depend on the production of the former, the goods produced and manufactured in Mizoram should be the.... of the economy. Is it the new system of economy ? However, I am happy that --- price of these products will be given by the Government.

Mr Speaker Sir, it is well and good if the production of Mizoram could be marketed at reasonable prices given to the people the farmer. In this regard, you might have heard from the newspaper and other sources the previous Government of Mizoram had already signed an agreement with TRIFED. the ginger production in Mizoram and other assential items will be marketed by them. The previous Government had already taken a decision, and final agreement will be TRIFED for marketing agricultural products from Mizoram to outside. So other sources of Economic marketing or good produced be marketed or the Government itself will purchase, that has to be clarified. Whether the Government of Mizoram is going to purchase this production within Mizoram from the farmers directly or through somebody, through some Agencies, what is the reason ? what is the policy ? It has to be clarified. If the Government of Mizoram can purchase directly from the farmers and market it outside... that is very welcomed policy. Hon'ble Chief Minister may kindly clarify. Because the previous Government had already made an Agreement with the TRYSEM that products of ginger Allied items with be marketed by them.

will

Now whether the present Minister try will purchase directly, Mr Speaker Sir, please bear with me, as Mr Zirliana has said that although I have spoken some few lines before, in the present term, we did not have more opportunity to speak while although we are in the Government in the previous regime,

Mr Speaker Sir, regarding self-sufficiency in food-grain it is very welcomed policy, but I have a very serious doubt regarding the implementation of the policy that envisaged by the present Government, the Bulldozer experience, we had earlier in the previous MNF Ministry was very very discouraging because Bulldozer once was out of order, it could not be repaired so easily and in the rural areas where this should be used. I think the Govt. Ultimately will incur serious losses. If at all the Govt. could do it, I will very much appreciate, and I also request that towards this end, the whole of Mizoram would be given similar treatment not only in Ruling Party's Constituencies,

Mr Speaker Sir, regarding Power supply our friends and Hon'ble Members had already spoken, as others had also mentioned that why this Government is only interested in Bairabi Hydrel Project. Why hon'ble His Excellency Governor has failed to mentioned the other projects under taken or in various cases, why whether the present Government is not interested at all to continue those projects.. is not interested at all in those projects. The Hon'ble Chief Minister may clearly clarify. Mr Speaker Sir, as mention about Political and administrative Reforms I would like to see a clarification from the Hon'ble Chief Minister when he wind up whether the administrative reforms that initiated by the Congress Govt. will be continued, we have created many districts many sub-divisions and blocks whether the present Government is going to strengthen man Power and other infra-structure facilities regarding the employees, interests, salaries and facilities of Government employees will be reduced in view of the salaries and facilities of the Government employees.

Mr Speaker Sir, the previous Govt. has formed committees to review. Now I would like to know whether the Government is going to implement the Fifth Pay Commission - which is, I think you can do it I think It will be the continuation of what the previous Government has done.

Mr Speaker Sir, finally, I fail to understand why nothing has been mention about the minorities in Mizoram we have district Councils we have minorities here. But I fail to understand why Hon'ble Governor-His Excellency has failed to mention about the minorities in Mizoram because the minorities as a whole deserve special treatment and care, attention. Why this new Government has no agenda on the minorities with these few words. Thank you.
