PU NIRUPAM CHAKMA :

Pu Speaker, hun min pek avangin ka lawm e. First of all, I would like to speak on demand no 54-PWD. Mr Speaker, Sir, I have

seen since this gov't has taken over there is no power in Mizoram. It has been my experience that the functioning of the Department concerning the PWD in the south is very very poor. It is a sincere and honest Statement in this august House from my side while vehicle could ply even during the election and after the election from Chawngte to Borapansuri, the roads have not been open for the last two and half Years. I donot know what is the reason. During the last November-December, Diltlang-Chawngte road was open after almost two Years. The condition of the Lungsan-Chawngte Road is very pathetic. Hon'ble Minister of this Government has visited and I hope they can certified it, if I, Speaker, it may be the words coming from opposition members, The Minister may not believe me. But he may kindly ask his colleagues who have visited Chawngte. Like wise in other places, the maintenance of the road is very poor. I was very unhappy to hear from the officials who are looking after chawngte road. Even the estimated budget amount was not available, during the last financial year to the Executive Engineer ultimately I am told that only 6 lakhs Rupees was given, With that small amount, some maintenance was very very poor, I am coming only. Yesterday from Chawngte.

In regards to the maintenance of Town Road, there is no provision at all and the condition of the road is very poor. Mr. Speaker Sir, sometime, some months back I had travelled through National Highway at Mamit side. I am very please to the hon'ble PWD Minister during the last Session saying very proudly about the achievement of the PWD that the Government is able to do even the work of National highway. When I saw practically, the level of the Standard of the work planned by the contractor. And hundred per cent of our local Contractor can do much better work than what he is doing. I have seen only one road roller on the way, collecting baly, rora at the nearby place. It looks like only some maintenance work is done. I am very sorry to say about the condition of the roads. Even if we are trying too, even the Government is trying to claim the achievement of maintaining this National Highway. I am sorry, I would like to appeal from this house to let the hon'ble Minister of PWD take the consaltative Member and visitors to find out what is happening on the ground. Can Hon'ble Minister give us assurance that will take us to see the road? Because we are spending a lot of money for that the Local contractor here, saying that they are not able to do it, under this circumstances Mr. Speaker Sir, I would request of the Hon'ble Minister to visit, Let it be placed in the Consultative Committee of the department and visitor will to see practically what is happening.

Mr. Speaker Sir, When I said this work programme, now earlier we used to have this kind of Programme and all work Schedule, it that time it was called work Schedule now it becomes work programme I don't know what is the difference but the programmes of the Department during that financial year listed the work Schedule prepared by the Department because this government and the present work schedule if we compare. I don't know what has happened to the Department itself. Is there something to hide that they are not reflected all the work. only a few works has been reflected in the work schedule. Hon'ble PWD Minister may kindly explain what is the poorest State with the preparation of work schedule. Whether we should assume that this are the only work the Department is going to excute during the Year. If it is so then I am convinced that the performance of the Department is much poorer than what it was during the previous government. Mr. Speaker, Sir, I am sorry to say that in the work Schedule there are very few Building construction.

The road proposal when we speak of the rural connectivity, Rural connectivity. I had found some project in the work Schedule. But I am very sorry to say that this money is not for a particular area. I think the money granted by the central government through the rural connectivity scheme should go to those areas where there is no road construction at all, who have big village not connected with road construction, I am sorry to say there are reputation of the existing rather it looks like maintenance of the existing roads. The Government of India....

Rural connectivity is to cover the villages which are not yet connected by road communication. That should be the priority but the preparation of the work schedule under the scheme, I think the very purpose of the scheme is not one thought over. Mr Speaker Sir, the previous government Constructed lot of buildings for the various department, Pu Speaker, it is difficult for me to explain then will you please excuse me. I would like to speak about the Demand of Co operation, I am not going to explain in detail and would like to point out only one thing-our hon'ble Chief Minister of Mizoram, Co-operative movement hi a tichhia a ni.

Engvang nge Cooperative Society Registration awm miah lo nmenah tanpuina a pek? Whereas the society who are registered very much deserving, they are not getting anything, It is very surprising. Is that the attitude of the Government? The Leaders of the House is here, I am afraid the movement of the Co-operation need not be taken into highest scheme. Hon'ble Cooperation Minister here kindly verified, kindly make an inquiry on these. Kindly assure us.

...481/-

PU R. LALZIRLIANA : Pu Speaker, ka lawm e. Vawin niah Department 7 kan sawi dawn a, minute 10 a ni a. Pakhat sawinan hian minute khat leh Second 44 vel zel kan nei tihna a ni a.
