NIRUPAM CHAKMA

Pu Speaker, ka lawm e,
hei Supplementary Demand hi,
the amount constitute 1/3
of Total Budget amount

during 2000-2001 I would like to emphasize the preparation of Budget for this State, should be improved than what it is today. Because most of the Supplementary Demand, I find many measure works had been taken up in the Supplementary Demand, which I feel that this kind of Provisions, may be envisage while the preparation of the original Budget Book. Because at the end, I think the whole process become complicated, we have to spend the money. Therefore, every department should see what are the measures works to be taken up during the year, and I think while the preparation of Budget is being done. All those Provisions should be envisage instead of coming in such a huge amount of Supplementary Demand.. If you look at the whole provisions, and Demands, lot of measure works is in there, that is one point.

Pu Speaker, Demand No.35-
ah khan 150 lakhs, it is meant for payment of Relief to victim of Natural Calamities, sanction by the Government of India is recommend by the 11th Finance Commission tih kha, 150 lakhs kha khawiah nge ? Natural Calamities ringawt an ziak a, eng natural calamity atan nge an hman tih kha sawifiah sela ka duh a. Demand no 49-ah khan 68 lakhs is require for payment of compensation to the land owners of Lengpui Airport. If I not mistaken, compensation for land already sometimes long back in Airport also commissioned. Why this new fencing also is that why this Rs. 68 lakhs is needed to the Government purchase additional land for the Airport. I think the Hon'ble Finance Minister may kindly clarify regarding this budget provision. Now I think the mood is cooled out otherwise in the morning when we were here the basic question is there is a budget committee, constituted as per the rules, we have the house's approval and when the committee functions there should not be any obstruction otherwise this sanctity of the committee is no more. When the sanctity of the committee become meaningless. If violates the privilege of the Members even the Speakers, The basic question is not amount of 3.30 lakhs. Pawisa thu chu a ni lo a ni. I am afraid the people were fighting for money. It is not that 3.30 nuaih leh singthum chu tlemte a ni. They can be adjusted in the other matter also but it is not a question Mr. Speaker. The question is the sanctity of the house, the sanctity of the committee, the budget committee and the privilege of the Members including the Speaker and the Deputy Speaker here because the Committee is budget committee. The Chairman is the Deputy Speaker here, when the committee decide something. It is as per law, there is no violation of law, the Executive clarify everything. Then the question is the privilege and sanctity of all these had come. I think this is a very bad. Now the House Leader had appology, I

...242/-

would like impress upon the Government that this kind of episode should not come in future. These are neglected Mr, Speaker, I don't know from what angles but this is nearly negligence. Negligence by the authority. Since, I am Member of the Committee, I think I should not speak more on this. I still believe that the privilege committee should look into this matter. Thank you.

* Speech not corrected.
