FU NIRUPAM CHAKMA : Mr.Speaker, Sir, it is unfortunate
MINISTER our oppoitive friends gone out (Speaker they are here) Mr Speaker sir, If they have said, I must express my gratitude to all the Hon'ble Members of this August House for their participation in the discussion on my demands. I'm also grateful to all the Hon'ble Members for their brilliant suggestion and at times their constructive priticism. I have taken notes on points where members are very much concerned. I feel that all these points and considerable Members will help me and my officials to become moreover and if wherever necessary.

Mr. Speaker Sir, as some of the Hon'ble Members demanded clarification on certain points. I would like to clarify them as far as possible. However, if there is no time, I would not be able to go in detail. However, as I have already said that I have already taken notes on all the points.

Mr. Speaker, Sir, to come to the demand, I have take up Printing & Stationery Department this department is very small, I believe it is important also. Now, this is the budget session and I'm very happy to hear recommends from some of my friends about the preparation of budget books which are very next and clean. An from this impression I must thank to the officials and staffs of Printing and Stationery department who had worked hard

day and night in preparing this budget papers so that we can give a clear indication to the Hon'ble Members that the Department has become much more efficient than what it was before.

Mr. Speaker Sir, there was highlight about the special favour raised by Mr Zosiama about the departmental favour to S.A.D and Treasury department. In fact, this is the policy of G.A.D department to see that there is no special favour. And I do not know whether there is a special favour. It is not our policy to favour one Official one office or the other. And I must assure the House to Hon'ble Members that nobody will get a special favour as the Hon'ble Members alledged.

Regarding Mr Vanlalauva's suggestion about the finding out of the alternative space. This is a very good suggestion also. But, however, we shall examine. In this regard, I would like to mention about the points raised in regard to the purchase of land. Mr Speaker Sir, I feel think I do not feel it necessary to go in more details since we have not purchased any land till today. And we will certainly exam it thoroughly. In such time, I think the honsurab-ble Memnners will come to know what will be the hour action?

Mr Speaker Sir, our opposition group leader Mr Zoramthanga is not here I must add the Greeting Cards which have been printed so far in the Printing & Stationery Department will certainly look into this and examine whether we can really do as proposed. I shall be very glad to have a Christmas Card also. If possible, if law permits or if it is convenient.

These are the few points I must also add to what Dr Lalthangliana has proposed that Printing & Stationery. These two Department which is running in a single unit may be seperated. But due to financial constraint I feel that the Government will be ina position to bifurcate or made it separate. However, I also feel the same idea we will examine and take suitable action if possible at all.

Mr Speaker Sir, these are the few points. I cannot go much too much in detail about the achievements. But, however, I must says that among various points. In our achievements, that our revenue received this year had gone beyond the target because we had acheived 43 lakhs 96 thousands six hundred and sixty six whereas our target was only thirty lakhs. So, I hope next time it will be more improving.

In regard to Printing & Stationery department, I feel that the consumption on stationery particles in various departments has come down because due to control of the system. Due to this policy and that way the Government has saved so much money.

Mr Speaker Sir, I'll come to the next demand which is Co-operation. In fact, before going in dealing some reaction to the points raised by the Hon'ble Members. I'll begin in Lalrinchhana Hon'ble Member from Ratu Constituency who has emphasised far Co-operative education. I feel it is a very important points and department of Co-operation is trying to Co-operation department at all levels. Primary Co-operatives, Co-operatives in the districts, Co-operative in the blocks and also the Co-operative institutions. This is one aspect where Co-operation cannot grow without education. If the Co-operators does not know what is the Policy of Co-operative, that Co-operative cannot go a head-way. I think this is what I feel in Mizoram also. I am suggestions, we will certainly pursue more and I feel that is onw point where we can give a new head-way to the Co-operative movement. At the same time, I also would like to emphasise on the Co-operative structure. I believe all the Hon'ble Members have already aware that because our finance Minister who has been a Co-operative Minister has taken sincere and initiatives during his time. Under So-operative Minister, member of programmes have been taken up. And he has attended number of meetings in thenational levels also to give a new face to Co-operative movements. This is in fact, as we have seen in the speech of Governor address to the House that the Co-operative will be much more vigorous than it was before. This Co-operative sector is one of the sector where additional money comes to this State. And I hope it was already cleared that Rs 32,40 crores will come. And also the N.C.D.C has chalked out some programmes, we had a seminar in Toursit Lodge sometime ago. Where about 20 crores suppes has been identified and the Government is strongly pursuing the proposals and we will also welcome the N.C.D.C to see that Mizoram is fully covered by their scheme. This 32.40 crores from NABAARD and 20 crores from NABAARD and 20 crore from N.C.D.C I believe we will certainly made the Co-operative strong movement.

Regarding the Apex Bank, our Hon'ble member Mr T.C.Pachhunga has said that Apex Bank is bankrupt. Mr Speaker, Sir, I would like to had in this issue that our bank is the most so far had in a sound position. Now just recently I'd received a report from Co-operative that the NAEEL has sanctioned some one crore 94 lakhs rupees credit to the 54 Co-operative societies. And that is of course under special scheme. But that will generate 10 crore of loans from NABAARD. This is for first phase we are going second phase, third phase like that. So since another leable that I think money will bea problem. But, Hon'ble Member Fu Zosiana Pachuau has correctly said that we have to see whether this Co-operative Society able to receive a Government loan and impliment accordingly. As I said I will not give special favour. There is not special favour from us. Co-operative is a democratic movement and if a co-operative is running properly, we will try to help them. Now, if all the members feel that one is not running properly how shall we help them. But we'll see their performance examine them thoroughly and consider for alone. That is what we are going to do.

Regarding Apex Bank and MUCO Bank, we are helping them. We want to see that these banks really make a strong position so that our Co-operative structure can make strong position. Because without finance nothing can be done. Regarding Fu Zobia's suggestion about Kulikawn Co-operative we have no knowledge about of giving grant-in-aid or assistant to Kulikawn Co-operative without registration. That is why we are certainly check up and take necessary action. Our Hon'ble friends from southern side Lunglei side repeatedly pointed out the need of petrol pump. I think our Members or Chairman of MIZOFED informed me that the land has been acquired and one MIZOFED IV Grade has given up land free of cost for such a petrol pump. We will take necessary action on this so that we can further improve the petrol pump position at Lunglei. And from Lunglei we should not worry for that. I'm also from southern side why should we worry.

We want to see that all the Co-operatives in our States should be democratised. There in our should not be any autocracy. Some autocracy is pursued by anybody. Then, Co-operative health cannot grow. One example was set and one example was having election in Apex Bank. And that is a clear indication that all the Co-operatives institutions will be democratised.

Mr Speaker Sir, I think these are the few points where I can read. Now I'll come down to last demand Civil Aviation. Mr Speaker Sir, our Hon'ble Member have pointed out that, he consult about the proposed Lengpui Airfield. In this regard, I would like to sincerely add that this is an issue where we had been hearing in this House for such a long time. But no concrete result had come out. I was sitting in the opposition when the opposition bench are in the ruling party. This is not the first time, this is infact my second time in the House I was in the opposition bench before and now infact I am in the ruling bench. At that time also I used to hear about the possibility of constructing the Airport at Lengpui.

Mr. Speaker, Sir, fortunately with the grace of our leader of the House when I occupied this position as a Civil Aviation Minister. I have personally visited as Hon'ble Member has pointed out already. At lengpui I had warked about nine Kms through the jungly that time road is available of course with some journalists, some officials from the concerned Departments. I have seen the land. Since this is considered the Airport can be constructed by the subsequent Ministry. It is also suitable for construction of Airport at Lengpui. I also had the similar impression that time. Infact, I was very happy also when I visited. But we do not know what is what about how to construct an Airfield. Where in thispoint I want to add one point that'so far till much 1991. No team has visited besides who had physical survey or verification. But it was only after our visit in March 1991. A high level team from Ministry of Aviation, National Airport Authority led by Shri A.M Bharadwaj, Joint Secretary where commender M.N. Omritalingan and then by National Airport Authority visited the sit. That was the beginning to make survey physically.

Earlier I used to hear that some other teams, has gone. But they had only aerial survey to take maps and all but they have not gone physically. And National Airport Authority is the considered authority who is responsible to construct the Airport. That is why, that is the real beginning. Of course, I must add my sincere thanks to subsequent Ministry so far who have taken a great interest to see that Lengpui Airport has come. But, however, at the same time. I would also like to add that only from the March, 1991 the real work has started. So, that was the information I must say some people are having. They do not know the exact true how it has been come up to this stage. After that, the land was again visited by some other Officials, a high level Officials again in May, 1991 consisting of so many officials from National Airport Authority. Besides was 30th May, 1991. First visit was March, 1991, the certain visit was 30th May, 1991. Officials are including Directors and Aerodrome Plane, Civil Air chief Engineer National Airport Authority, Asst. Director Airports and Aerodrome Plane, S.H. Khan Director Aerodrome North-Eastern Gauhati. These are the Officials along with our Officials from Mizoram Government. So, the finding was that the height was not suitable for construction of an Aerodrome fit for Boeing 737. So, that was the first time when the high level team has found that it was not suitable. As Fu Vanlalnghaka has pointed out that Mizoram Government cannot dictate whether to construct an Airport here or there we have no power what we had to do is only to give land, help them with our officials who are working in the Government of Mizoram and also with necessary information. And there are some condition of giving electricity and water. These are the things which we can do not to instruct to construct an Airfield here or there. We should have been more happy if it can be brought much closer than Lengpui. But, because we cannot do that, it is the National Airport Authority who are the final authority to construct the Airport.

Now, I think it will be more clear if I add some more points here. After that, the next land in July, 1991 BRTF was insticted to make a survey another before, besides that three to five Kms from the original side. And as far there was conducted by the BRTF and Map was prepared. And the report was sent to National Airport Authority by November 1991. So, that land was also not found suitable. Another portion has been surveyed. So this now, this is coming. Not only one place, other place also, first side, second side, third site and this is the present side which was found suitable for constructing the Airport is the third site. I would not take much time. I think it will be clear we have given through press release and may be it is available to some members also. I believe that Hon'ble members are very much aware of this situation. Now, the total cost approximately will involve 69.80 crore. Now, we can see after this. Because the report has not been approved by this Civil Aviation Ministry. Now, the Civil Aviation Ministry is examining and some time. That is our position I cannot tell beyond that.

I would like to thank all the Hon'ble Members about their concerned about constructing an Airport in Southern Side. As I said earlier, I'm also from

Southern side. So I also feel the same thing. And the Minister in-charge. I feel they should not worry much about this, as we have the same idea. Regarding Fu Van-lalauva's points in the budgetary provision were writing major head, minor head, other charges. Other charges includes the hiring of helicopters and also construction of some small helipad in some places. While Minor head provision is small. That is to survey the Lengpui and Kawmzawl. Some provision of 45 lakhs has been got. And major head where we found that 10 lakhs is provided for maintenance of Airfield at Tuiriak. So there should not be any confusion, because it is good in this way. Regarding purchase of Vayudoot and helicopter, the Government is not going to purchase whether Vayudoot or helicopter, because we are not in a position. That is what I can say, Hon'ble Members are interrupting me, I hope they are very pleased to hear about the Lengpui Airport and I shall look for about their co-operation in this regard also. And regard to Co-operation Department and also Printing & Stationery. Their deliberation will certainly help us and the points we have noted down, we'll examine thoroughly and try to do the needful wherever and when necessary.

With these few work, I must thank all the Hon'ble Members to bear with me for such a long time. So, Mr. Speaker, Sir, my demands 16,40,46 Printing & Stationery, Co-operation Department, Civil Aviation for a sum of Rs 8 crore 20 thousand may kindly be pass by this August House. Thank you.
