PU NIRUPAM CHAKMA  
MINISTER

: Pu Deputy Speaker, the resolution moved by Pu Lal-rinchhana in such again by the Government for purcha-

sing the Ginger at the rate of Rs. 3.50 per kg at Aizawl. I think this is a good resolution but purchase of ginger by the Government it seems to admit that because marketing should be done by any marketing agency or some other corporations. I sincerely admit that agriculture marketing is an important component of co-operative movement. But due to certain constraint several difficulties we cannot equipt ourself to do our best and I would like to inform the House that as we have experiance ginger marketing in Mizoram undertaking by MIZOFED at a join bank service with NAFED and this join banks are got a very serious set bank, because of these MIZOFED is till suffering and still could not recovered itself. There may be several at the reasons but among those reasons the most importance are the failure, what I mean is the failure of the ginger rate is that firstly Mizoram ginger is normally graded as secret and prices outside Mizoram is not encouraging. Secondly, the MIZOFED is not equipt with grading and focusting arrangement because it is a still in a poor State. Then there is lack of manegerial experiance at the result of which large quantity of ginger was damage. Fourthly, being perishable items ginger were transported by Train to Calcutta for terminal market serve at heavy string case and damage.

.... 1039/-

So these are the most important factor why the joint banks by MIZOFED and NAFED was the failure. And due to this NAFED or TRIFED they are not very careful these days to under take ginger marketing particularly from Mizoram State.

Now, we should not discharge from embarking a fresh marketing activities, but to take initiatives how to overcome these difficulties.

Now, the co-operation department has estimated ginger production. I mean the harvest of this year is approximately 80 thousands qtls. that is 8 thousands metric tonnes. This is very big harvest infact and marketing agencies should be very careful, if they want to take any sort of marketing with in colaberation or enjoyment service either NAFED or TRIFED or any other marketing agencies.

However, the co-operation department has written to National Co-operative Development, National Agriculture and Cooperative Marketing Federation which we called NAFED and also TRIFED. Tribal cooperative marketing development federation, limited, it headquarter at Delhi, and they had branch in Gauhati also to explore the feasibility of marketing of ginger. Gauhati branch has response centre that means TRIFED has responded us. And they have written in to see the price. What will be the price here, so that we can make a deal with MIZOFED.

According to their request as here it is written, as here it is applied I mean, replied to the Managing Director TRIFED, New Delhi in which we had given terms and conditions, so as to make a deal. Now along this terms and conditions, it is written that purchase can be made through co-operative societies in the areas where there are marketable surplus of ginger.

Secondly, to purchase right from village and bring them by the MIZOFED on transport to Aizawl. MIZOFED would like to hire the Central wire House Godown at Aizawl, hring charge will be borned by MIZOFED. If TRIFED collect ginger from Aizawl, the delivery can be made from Central wire House Godown and the onward transportation will be responsibility of TRIFED In case how much TRIFED insists for our delivery at Silchar. MIZOFED can arange transportation by hring Trucks which mainly go empty to Silchar or by their own Truck. Now theseare the conditions made by MIZOFED. So as to make deal with TRIFED and the rate we had given to them is that, if they want they can lift ginger at Aizawl, it can be 350 the lowest price. If they insist us to deliver ginger at Silchar it should Rs. 380. But if this deal is finalised or if they agree with terms and conditions also the MIZOFED will not be able to buy at the rate of 350 what the resolution written here.

Now, the Price Maximum will be fixed by MIZOFED if the deal is agreed between the two parties. Otherwise no-positive act that can't be taken. Which is mainly depend on the TRIFED with which they are making the deal, and also NAFED, they have not given any replied here.

Now, under this circumstances Mr. Dy. Speaker, I don't think that this resolution will make any gap whether we pass or it is passed in the house unless and untill we assure that ginger can be marketed in a suitable terms and condition and MIZOFED can contribute something. So my ~~with~~ personal opinion is that, we should be withdrawn and let the Government take initiative because we had been taking and we are very much aware that the production of our State will go to outside so farmers can gain renumerated prices and also to help them not only the grower but the Government and any other agencies. Thank you.

PU R.ROMAWIA
