PU J. LALSANGZUALA
MINISTER

: Mr. Speaker Sir, As you are aware, I had sought for approval of this august House for 'Vote on Account' on two occasions during the current year.

On 14th March, 1996, Vote on Account for the first four months from April, 1996 to July, 1996 was obtained. As you know this was necessitated because of the ensuing General Elections in the country on account of which the Central Government had deferred finalization of Plan outlay and the Central fund support for 1996 - 97. Again due to unforeseen political developments at the Centre, the reconstitution of Planning Commission was delayed and I had to obtain approval of this House for 'Vote on Account' for further two months' requirement for the months of August and September, 1996 on 17th July, 1996.

2. The discussion of the State Plan outlay for 1996 - 97 was held on 30th August, 1996. Unlike the preceding years, finalization of the Sectoral allocation of Plan was not done immediately. As a result, even though the Planning Commission has agreed Rs. 281.00 crore as the State Plan outlay for 1996 - 97, the Sectoral allocation was to be finalised and approved by the Planning Commission. The 'Vote on Account' obtained last is only upto 30th September, 1996. It is now necessary to pass the regular Budget for the whole year 1996 - 97.

3. I regret to inform the Hon'ble Members that in spite of the allocation of Rs. 281.00 crore for the State Plan outlay for this year, I can only prepare the Budget on the basis of last year's outlay. I am not in a position to include the enhanced amount in the present Budget as detailed preparation of Budget documents takes a minimum period of three to four weeks and as, at the time of going to Press, the Sectoral allocation had not been approved by the Planning Commission. Therefore, the present Budget documents supplied to the Hon'ble Members are copies of the one which were presented to this House on 14th March, 1996 representing the outlay on the State Plan at the level of 1995 - 96 and the Central assistance at the same level as last year. For the increased State Plan outlay for 1996 - 97, I will come before this august House to seek its approval through Supplementary Demands. Provision will also be needed for grant of Interim Relief and two instalments of Dearness Allowance to the Government employees and also revision of pay scales based on Fifth Central Pay Commission Report which is expected any moment. At the moment no provision for these requirements is made in this Budget. For these requirements, I will approach the House in due course.

4. In my budget speech in March, 1996, I had mentioned in detail the recommendations of the Tenth Finance Commission. I need not repeat the same now. However, I may mention that for the upgradation of administration Rs. 2.26 crore representing 20% of the recommended amount each for the concerned items and Rs. 11.40 crore for Leng-

pui Air-field has been provided in the Budget. Regarding Lengpui Air-field, Finance Ministry has been requested to release the full amount of Rs. 57.00 crore in two instalments during 1996 - 97 and 1997 - 98 to enable us to complete the scheme in 1997 - 98.

5. I may share with you the acute financial constraints being faced by the State Government. The revised budget estimate for 1995 - 96 envisaged a closing deficit for Rs. 41.21 crore. However, according to the Reserve Bank of India, we had closed the year 1995 - 96 with a negative balance of Rs. 44.92 crore plus Rs. 8.40 crore representing Ways and Means Advance. Therefore, the opening deficit for 1996 - 97 has come to Rs. 53.32 crore. This huge deficit is mainly because of the decrease in our share of Central Taxes during the first two years covered by the Tenth Finance Commission's recommendations for 1995 - 96 and 1996 - 97. Our share on this account is likely to be less to the extent of Rs. 40.00 crore as compared to the amount assumed by the Tenth Finance Commission. We took up this matter with the Central Government but to no avail so far. Further, the unprecedented calamity in Chhintaipui District during last year had also caused this heavy deficit as our appeal for financial assistance on this account had fetched only Rs. 4.71 crore which is far from adequate to meet the need for restoration of public utilities etc.

6. We all know that our Budget is heavily dependant on the flow of resources from the Centre. The growth of our own State revenue collection is far inadequate to match the increase in our administrative expenditure. In my speech in March, 1996, I mentioned that the Mizoram Resources Mobilisation & Taxation Enquiry Committee under the Chairmanship of the Chief Secretary has made fruitful recommendations which brought some additional revenue. While we have made every effort to raise resources of our own to match the need, there are limitations as the resource base of our State is still very poor due to lack of infrastructure. Hence, the alternative is to spend discreetly and avoid unnecessary expenditure by all Government Departments. For this purpose, Finance Department has issued a package of Economy Measures and if these measures are strictly followed by the Departments, we will be able to invest larger fund in the developmental activities.

7. Sir, I would like to mention that due to the untiring dedication and efforts made by the Chief Minister to get more Annual Plan allocation for 1996 - 97 and the generosity of the Centre to this infant State, the Annual Plan size for 1996 - 97 has been fixed at Rs. 281.00 crore. The increase of Plan outlay is, therefore, 23.78% over the last year's allocation. I may

further be allowed to add that the Prime Minister had organised a conference of the Chief Ministers of all the States in the country on the 4th & 5th July, 1996 at New Delhi. The Conference endorsed Seven Basic Minimum Services as of paramount importance in securing a better quality of life for the people, especially those residing in rural areas. The Planning Commission while allocating the Plan outlay for 1996 - 97 has specifically earmarked a sum of Rs. 42.00 crore for the Seven Basic Minimum Services indicated below :

- (i) 100% coverage of provision of safe drinking water in rural and urban areas.
- (ii) 100% coverage of primary health service facilities in rural and urban areas.
- (iii) Universalisation of primary education.
- (iv) Provision of Public Housing Assistance to all shelterless poor families.
- (v) Extension of Mid-day-Meal programme in Primary schools, to all rural blocks and urban slums and disadvantaged sections.
- (vi) Provision of connectivity to all unconnected villages and habitations.
- (vii) Streamlining the Public Distribution System with focus upon the poor.

These Seven Basic Services will have to be continued till 2000 A.D. The State Government is to make necessary action plans and prepare appropriate schemes to achieve these goals.

8. As I have stated earlier, the Annual Financial Statement for the year 1996 - 97 was laid before the House alongwith the Demands for Grants in the month of March, 1996. For the convenience of the Hon'ble Members, the same copy alongwith the allied documents like Explanatory Memorandum, Highlights of Performance during 1995 - 96 and Programmes for the current year and the Appendices are now circulated to them. I am, at this stage, seeking demands for the current year inclusive of the amounts obtained on 'Vote on Account' on the last two occasions.

9. With these few words, Sir, I commend the State Budget for 1996 - 97 for consideration and approval of this august House.

Thank you
