PU NIRUPAM CHAKMA  
MIZISTER.

: Mr. Dy. Speaker, first we have a proper Market place not..... accomodation facilities otherwise this Regulation whatever

it may be whether the places are right or wrong I am afraid the problem will not overcome. So, I would like to thank all the Members for their general concern that however the implementation at this provision Government will face many difficulties, therefore I would like to request our honourable Members to look to this side and once again I would like to request the Department to see how this decision be overcome and the need that the Market buildings because in the provision this Regulation can effect only the Market buildings constructed by the Government of Mizoram. We cannot enforce this provision to others who are sitting outside the complex, there is no mention of this that is why the present Market available in Aizawl, Lunglei or any other places those buildings constructed by the Government of Mizoram cannot accomodate all the interested persons who want to sell their goods. That is why I surely think that the Department directly did and also consider my proposal for allowing the private parties to construct Market whether it is selling vegetables or any other
