Finance Minister-in han present sela.

PU R. THANGLIANA
MINISTER.

Mr. Speaker Sir, I rise to present the
Budget Estimates for the year 1977-78.
The Budget Estimates I am presenting mark
the completion of the fifth financial year as Union Territory.

2. Before dealing with the details of the
Budget, I would like to place on record the great loss the
country has suffered recently in the sudden demise of our
beloved President Shri F.A. Ahmed whose concern for an interest
in the progress and development of the hill people of the
North Eastern Areas will be remembered by us. I would also
like to express our heart-felt condolence at the untimely
demise of our beloved colleague Pu Lalhmingthanga. He was a
very active member of this Assembly who used to be a great
source of encouragement and inspiration for all of us. In his
death Mizoram as a whole and this house in particular has
lost a great citizen and leader.

3. Since I presented to this House the
current years' Budget Estimates, significant changes have
occurred in the country. As the honourable members are aware,
the emergency imposed by the Central Government to curb the
various anti-social and disruptionist activities has put
democracy back on the rails. It has brought about peace and
orderly governance and a sense of positive direction in all
walks of our national life. The vigorous new economic pro-
gramme announced by our dynamic and progressive leader ushered
in an era of discipline, constructive work and development.
A new wave of enthusiasm and urgency swept the length and
breadth of the country, stirring the entire nation into
serious activity which is leading us to self-sufficiency and
prosperity. The implementation of this programme was taken
up by this administration with earnestness and the entire
administrative machinery has been geared to achieve the
economic revolution envisaged in the programme. The people
of Mizoram have been greatly benefitted.

4. There has been considerable improvement in the law and order situation in Mizoram largely due to the untiring efforts of our Leaders, a peace agreement was signed in July, 1976 between the Govt. of India and the M.N.F. This is definitely a great step towards peace and agreement.

5. In my last Budget speech I had mentioned about the threat posed by the impending Thingtam famine. During the year 1976 rats appeared in large numbers and crops were destroyed resulting in poor harvest in some areas. In addition to some relief measures in the affected areas. Government have taken all possible preventive measures and the co-operation of the people in this respect is very encouraging. Many cultivators have taken to cultivation of ginger and it is found to be very encouraging.

6. During the year under review unprecedented heavy rainfall caused disruption in communications as a result of which we had to resort to airdropping of rice in many centres. The untimely drought also greatly affected the harvest in some areas. This would remind us of the defect and disadvantage of our dependence on Monsoon because of our uneconomic and harmful method of cultivation.

7. ACCOUNTS 1975-76.

During the year 1975-76 the total Budget Estimates both under Revenue and Capital for the year was Rs.4248.46 lakhs. The position of our Consolidated Fund has further improved and the year closed with a plus balance of Rs. 47.50 lakhs.
