PU H.K.CHAKMA :

Mr.Chairman, I on behalf of my
community and people of my locality,
strongly oppose the changing of

the name of Demagiri.

The name of Demagiri has a historical
background, From the beginning of the British occupa-
tion the place had been known as Demagiri. All British
documents, Books and official records have described
the place as Demagiri. There is no official record
known to me, where it has been mentioned otherwise.

Demagiri was a local name and
the British simply accepted it. There is no truth in
the suggestion that Demagiri there is no word as Dema.

The name of a place should be
changed in accordance with the wishes of its people.
The local people, at least majority of them, do not
want to change the name of Demagiri. Before passing
the resolution we should circulate the resolution
eliciting public opinion.

There are many States in India
where minority people live in some parts of the State
with their own names for those places in which they
live. Nowhere in India such attempt has been made
to change the local names. Wrong pronunciation and
wrong spelling of the name of places by the British
have been altered. But names of places with historical
and cultural back ground never changed, not only in
India but all over the world.

Everybody takes his own name.
There is a sentiment attached to the name. There is
a history behind a name. There is a culture behind
a name. If we try to change the name of a place
against the wishes of its people it will be interpre-
ted as a crude attempt suppress the culture and sen-
timent of its people.

We are for intergration of different communities living in Mizoram. But we cannot accept imposition of such thing against the wishes and sentiments of the local people.

To conclude, we are opposed to the change of name of Demagiri because the history and culture of the Chakmas in Mizoram are associated and centred round it.

I request the mover of the resolution to withdraw it in view of the feelings and sentiments of the local people.
