For implementing all the programmes which have been mentioned above we need a strong and efficient administration. Mizoram became a Union Territory only six years ago and the process of building up the administrative infrast nature has been going on since then. On the ground our administrative machinery is rather weak. There is also need for reorganisation of certain Departments and delegation of greater powers to the field officers so that problems and difficulties of the common people may be attended to on the spot. These tasks will be undertaken by the government in a systematic manner after a careful study. Apart from reorganisation and strengthening of the Administration a Special drive will be launched for eradication of corruption in the administration the efficiency of administration to a large extent is dependent on the integrity of the officials manning the Administration and every effort will be made to improve the standards of integrity' tih a ni<sup>h</sup> hei hian a khaikhawm tak zetin ka hria, chuvang chuan L.G. thusawi hi engnge anih tih thlirin kan za a tang rualin kan hma hi kan thawh tak meuh hi a tulin ka hria a ni.
