We will now take-up general discussion  
on th budget for 1978-79. This being a general d scussion,  
members can d scuss the Budget as a whole and may cover matters  
pertaining to various departments of the Government or any  
Question of principle involved therein. They can also discuss  
the general scheme of the Budget and revenue and expenditure  
account. I suggest that members need not raise details of speci-

be d scussed when the ministers concerned move demands for  
grants in respect of the Departments under their charge.

I suggest that each member may take  
not more than 15 minutes. Hon'ble Minister may kindly note the  
various points raised by members during the discussion. After  
members have spoken, the ministers concerned may briefly reply  
to the points concerning their departments. At the end, the  
finance minister will reply to the debate.
