**Published by Authority**

Vol. XXVIII Aizawl, Wednesday 17, 2. 1999, Magha 28, S.E. 1920, Issue No. 14

## NOTIFICATION

No. B. 13015/3/99-SYS, the 9th February, 1999. In pursuance of the Government of India, Ministry of Home Affairs NEC Secretariat, Shillong letter No. NEC/SPORTS/3-40/98 dt. 23. 9. 1998, the Governor of Mizoram is pleased to constitute a State Level Committee to scrutinise and select the list of beneficiaries under NEC Direct Funding Scheme with the following members :-

- (1) Minister of State i/c Sports & Youth Services — Chairman
- (2) Secretary, Sports & Youth Services — Member
- (3) Adviser, Planning Board — Member
- (4) Director, Sports & Youth Services — Member Secretary

The functions of the Committee will be as per approved guidelines appended at Annexure I.

Denghnauna,

Secretary to the Govt. of Mizoram,  
Sports & Youth Services Department.

## ANNEXURE-I

**GUIDELINES FOR IMPLEMENTATION OF THE SCHEMES "DEVELOPMENT OF SPORTS & YOUTH ACTIVITIES IN THE N.E. REGION" AND "SUPPORT FOR MOUNTAINEERING AND OTHER ADVENTURE ACTIVITIES IN N.E. REGION" DURING THE NINTH FIVE YEAR PLAN PERIOD**

Financial assistance provided to registered sports clubs and associations/NGO's under the scheme during the Eight Five Year Plan period were guided by some guidelines which were comprehensive enough but needed to be revised in the light of experiences gathered during actual implementation of the scheme so far. It is considered that there is much to be done in the field of Youth affairs and sports. However, the Government of India through the Ministry of Human Resource Development, Department of Youth Affairs & Sports and the State Governments are also doing a great deal in this area. The NEC has been intended right from the beginning, not to cover the whole gamut of Sports & Youth affairs, but to fill in the gaps in certain critical areas with a view to ensuring accelerating balanced regional development in the field of youth affairs and sports. Its intention was mainly to assist in the provision of basic infrastructure, essential equipment and improvement of skills through coaching and exposure to higher levels of competition in sports and other youth activities. We should confine ourselves to these areas and while doing so, the limits of these areas must be clearly specified.

1. The eligible organizations should be restricted to state level Organisations, District Level or Area Level Organisations and clubs. Each of these bodies must be properly registered and must be affiliated to the appropriate body at the higher level. Therefore, the club should be affiliated either to the Area Level or District Level Organization. An area Level Organization should be affiliated either to the District or State Level Organization.
2. Assistance under the scheme shall be evenly and equitably distributed among the North-Eastern States. We should not, however limit ourselves to assisting only one club or organization in a block or sub-division or district. It may be necessary for us to support more than one club or organization in a small area. There may be one body specialized in development of football and another which is specialized in development of swimming in the same block or town. It may also be that there is a particular area in the region which has potential for a specific game or sport and it may need more encouragement in this particular area. Proper understanding of the spirit of these guidelines is sufficient to ensure proper dispersal of the assistance. If any positive discrimination is desirable, then towns and cities should be given special consideration. Due to lack of proper urban planning, amenities for sports and other youth activities are found to be inadequate, if not totally lacking, in many of those areas.

3. It is reasonable to provide assistance to all sports and games recognised by the International Olympic Committee (IOC), we should, therefore, include important items like athletics, archery (it may be noted that an archer from N.E. Region represented the country in the Olympics at Atlanta) and so on. Popular games, though not included in the Olympics, but which help in the development of youths could be acceptable. Martial Arts is a grey area where there are no clear lines. It has been noticed that there are several organizations even at the National Level for one item and many of these items have been given different names to suit perhaps different schools of style. Therefore, even though the N.E. Region may have some potential here, we should not indiscriminately include any item in Martial Arts except items like Judo, Fencing and Boxing which are also established Olympic items/recognized by IOC. Card games like Bridge etc., should also be excluded from the purview of NEC Secretariat's financial assistance under these schemes.

4. Equipment should be provided only to organizations which meet the requirement of Para I above, (a) In the case of adventure organizations, only such organizations which have proven track record of good performance and only such activities, some of whose members have received training at recognized institutes and which have established links with well-known bodies at the national or international level may be considered. These organizations should, however, be registered. In States where such clubs are non-existent or are extremely few in number, the NEC Secretariat may assist in starting new clubs by extending only part financial assistance.

(b) Assistance to disciplines which are individual in nature like athletics, should be done not for any individual but to a recognized body which is guiding the individual sportsman/sportswomen.

5. Development of infrastructure should be limited to schemes or proposals which do not have very substantial civil works. We should, therefore, limit ourselves to the improvement of playgrounds and facilities for indoor sports. We may fix a reasonable monetary limit for improvement of such playgrounds and construction/improvement of indoor halls. An amount not exceeding Rs. 10.00 lakhs (Rupees Ten lakhs) may be fixed as the limit.

6. Our intention is to provide an avenue for the development and honing of talent and raise the level of sports activities in the region. Therefore, coaching camps should be specific towards a particular competition. General coaching camps/coaching sessions which may be open-ended would not be admissible under our scheme of things, which is for providing specific coaching for competition. We should clearly indicate the period. This should not be for more than a

month and the coaching must be given by a Coach who is qualified from SAINIS is a coach with a proven track record in the National/International level. We may limit this coaching only to District Organizations and above and not to clubs which normally do not participate in competitions of sufficiently higher level.

(a) We may support Coaching Camps of State organizations for zonal, regional or national championship. We should not be concerned about any advantage that one state may gain over another because of coaching as we are interested in raising the level of games and sports. In such a situation it may be possible that we are assisting one state or organization which is competing with another state or organization. The fact that they are competing against each other should not stop us from providing assistance to any or all of them.

(b) However, in case any club from the North-Eastern Region qualifies to take part in an open competition which is of a national level like the Durand Cup or DCM Trophy, then such clubs can be assisted for coaching only but not for any other costs connected with participation in such competitions. There are also competitions of very high standards though not national competitions as such. So far, no club from the N.E. Region has ever had the privilege to participate in such prestigious tournaments. Apart from this exception, we should clearly limit ourselves to assisting in each state only those organizations which participate in the national level championships, i.e. those approved by respective sports apex bodies in the country.

(c) Coaching at a particular place may also require expenditure on "field preparation" and "indoor hall preparation" which should however, be of minimum level (not exceeding Rs. 50,000/-) as it should not involve extensive repairs or improvement. We should not limit the coaching to the juniors only but it should be open to seniors as well. This is necessary because participants in the senior groups could be persons right from the age group of 17 or 18 even though these sportsmen would be eligible for the Junior levels too.

7. On assistance for organization of sports activities we may decide as follows:-

(1) We may assist at the Regional Level where four or more of the seven N.E. States are participating,

(2) For the State level competitions, NEC's supports will be 50% or Rs.5.00 lakhs whichever is less.

(3) We may assist for the National Level if such Championships are organized in any place in the N.E. Region under the auspices of concerned National Level Organization and organized by the respective recognized State Level Organization/Body.

8. Adventure activities like Exploration, Mountaineering, Rock Climbing may be encouraged as such activities provide the participants mental fortitude and serve towards confidence and character building.

9. Funds under these two schemes shall be evenly distributed among the North-Eastern States and the selection of beneficiary organizations shall be done in consultation with the concerned Department/Directorate of each State Government whose responsibility is to effectively monitor implementation of the schemes. All proposals or financial assistance from NEC should be accompanied by an inspection report from a responsible officer of the concerned State Department/Directorate. So also should be all cases of 2nd/3rd/final instalment releases without a specific recommendation from such authorities in the states no fund shall be released to any club/organization.

W.Synrem,  
Director(Manpower Development)
