 an sawi ve sela a tha ang.

PU ZORAMTHANGA :
 MINISTER

Mr. Speaker Sir, I have great
 pleasure, in fulfilling my
 responsibility of placing the
 supplementary demands for the year 1987-88 and the budget
 estimates for the year 1988-89 before this House, for its
 approval. The Financial Provisions in the revised estimate
 for 1987-88 and the Budget Estimate for the year 1988-89
 are as follows :

In the budget estimate 87-88 the render account is
 in lakhs 16,422.79 that is in lakhs and for the Revised
 estimate is 27022.41 and for be 24,910.90 and the capital
 accounts is Rs. 6,513 that is in lakhs point 10,7825.07 that
 is Rs. 10,782.50 and Budget Estimates is 2316.30. The total is for the
 Budget Estimates 1987-88 Rs. 22,935.89 and for the R.E
 1988-89 Rs. 31,853.55 and for Budget Estimate 33227.26.

From the above figures it is seen that there is a substantial increase amount in the Revised Estimates for 1987-88. The honourable members are aware that on accounts of drought, flood, consequential, inflations, escalation of price level of commodities etc, the Government of India has adopted various economic measures and inspite of that the central Government is quite generous in giving us substantial amount as additional funds for R.E. 1987-88. You will find that the budget allotment for 1988-89 is less than the Revised Estimates for 1987-88. The reason of this shortfall is due to the fact that Government of Mizoram has not yet received allocations for B.E. 1988-89 for certain schemes under Centrally Sponsored Schemes/Central Plans and grants for Border Roads for which only taken provisions have been kept in the Budget.

Being an infant State without any sizeable revenue the state virtually depends on Central Government for funding the requirements of the State. On becoming a full fledged State, the Administrative machinery of the Government is required to be strengthened and accordingly number of new posts have been created in the Secretariat and almost in all Departments. For Rehabilitation of M.N.F. personnel who came overground as a result of Peace Accord, payment of compensation to the public for damage of properties and houses during the 20 years long disturbance in Mizoram, Construction of drainages etc. the Central Government agreed to grant additional fund to the tune of Rs. 60.94 crores under Non-Plan for the current year 1987-88. Further, based on the recommendation of the 8th Finance Commission, an amount of Rs. 5.10 crores have been given to the Government of Mizoram for "Upgradation of the Standard of Administration of the State". This amount is to be utilised during 1987-88 and 1988-89. For proper utilisation and implementation of the schemes 50% of the amount is provided in the Revised Budget for 1987-88 and another 50% in the Budget for 1988-89.

The Annual Plan outlay for 1988-89 is Rs. 65 crores as against Rs. 70 crores for 1987-88.

Apart from the State Plan Programmes the Government of Mizoram is also executing number of Development Schemes funded by NEC and also Centrally Sponsored Schemes/Central Plans. Unlike the normal practice of the Central Government towards States in respect of Centrally Sponsored Schemes, the Central Government has continued to meet the full expenditures required for execution during the current year 1987-88 without insisting matching contributions from the State.

I shall now mention in brief the progress and achievements of some Departments during the current year and also some of the schemes and programmes proposed to be undertaken during the year 1988-89.

ELECTION DEPARTMENT

The Department is responsible for preparation of Electoral Rolls relating to all the Assembly constituencies in Mizoram and conduct of Election to the Legislative Assembly and Lok Sabha including bye-elections whenever necessary, intensive revisions of Electoral Rolls are being undertaken and will be completed during the current year. The Department has proposed for creation of additional posts to strengthen the Election Machinery at the State Level.

REVENUE DEPARTMENT

The Plan outlay for 1987-88 is Rs. 23 lakhs with which updating and maintenance of land records, survey training and Cadastral survey of 640 hectares of land were taken up 3308 Nos of land settlement Certificates were issued during the current year. 9 local candidates and 3 in-services personnel have been deputed to undergo training in the survey training Institute, Hyderabad.

Construction of butcher shed at Vaivakawn, market sheds at Champhai, Biate, Sihphir and Kanmun, Market Site Office and Government stall at New Market, Aizawl and minor works have been completed. House sites have been allotted to 600 M.F. Returnees at Maumual. Survey and demarcation of land at Zokhawsang for shifting of Assam Rifles have been completed.

A sum of Rs. 24. lakhs is provided for 1938-39. With this the Department envisaged to create 13 different posts and depute 14 Inservices personnel and 4 local candidates for training in survey Cadastral survey of 700 hectares of land surrounding the areas of Thenzawl, N.Vanlaiphai and Serchhip is also proposed to be taken up. Assessment of land acquired for shifting of Assam Rifles at Zokhawsang and payment of compensation will be completed during 1938-39.

ACCOUNTS & TREASURES DEPARTMENT

The Department is responsible for maintenance of G.P.F, Pension, Local Audit and Service History of all Gazetted Officers, Supervision of works of Treasuries and Sub-Treasuries in Mizoram and issue of Pay slips to all Gazetted Officer is also vested with this Department. During the current year accounts of 12 Officer/ Institutions have been checked 263 cases of final payment of G.P.F. and 240 pension cases have been settled.

A second Treasury at Aizawl, Sub-Treasury at Chamngte, Mamit and Serchhip are proposed to be opened during 1938-39. For better and more efficient financial administration, a schemes has been drawn up to take over Accounts from the Accountant General during 1938-39.

EXCISE & TAXATION DEPARTMENT

The main activity of the Department are collection of various Taxes and duties under different Acts and Rules in forces in Mizoram and prevention and detection of Excise Crimes. There are at present two wings in the department.

(1) EXCISE WING : During the current year, considerable quantities of intoxicating and narcotic drugs such as Heroin, Ganja and Mandrax and huge quantity of unauthorised liquor were seized. 866 persons were arrested under Excise Act and 642 Cases have been registered. 9 persons were arrested under Narcotic Drugs & Psychotropic substances Act. To have effective control over the illegal trafficking of drug and liquor 67 posts of various categories have been created during this year. Excise duty collected during the year upto December, 1987 was Rs. 208.67 lakhs as against Rs. 226.16 lakhs during 1986-87.

(2) TAXATION WING On becoming a state, the need for building up our own resources cannot be over emphasised. To make detailed and indepth study of the resources of the state, the manner in which the resources are being tapped, the scope for proper rationalisation of the existing tax structures, the Government of Mizoram has constituted the " Mizoram Resources" Mobilisation and Taxation Enquiry Committee". On the recommendation of the Committee, to augment our internal revenue which constitutes about 3.8% of the states annual expenditure it is proposed to raise at least to 5 % by increasing various rates of taxes of Petroleum and its products, entertainment, Professions trades and callings and excised duty without causing hardship to the common people. Proposed is also under way for Legislation of new Taxation Law on Sales Tax on passenger goods.

HOME DEPARTMENT

(a) POLICE : On conferment of statehood, Government has undertaken a review of various policing needs and re-organisation schemes to suit the emerging needs and compulsions. As a results a number of new posts including I DIG (Training) and 6 additional S.P have been created. With the provisions of Rs. 100 lakhs during 1987-88, construction of 104 Police quarters will be completed during the current year. Construction of Police station buildings at Aizawl, Lunglei and multi-storeyed building for Police quarters at Saron Veng will also be taken up under upgradation scheme.

A sum of Rs. 120 lakhs has been provided for 1988-89 under Plan which will be utilised for completion of on going works.

(b) JAIL : The Central Jail at Aizawl, the first of its kind in Mizoram has been commissioned. Action is at hand to introduce vocational courses to provide scope for learning trades to prisoners for their reform and rehabilitation. Work for the District Jail at Aizawl Veng has been completed and will be commissioned shortly. I would like to inform the Honourable members that Revenue Receipt of the State has also been improved. As against the Budget Estimate of revenue collection of Rs. 780.30 lakhs, an amount of Rs. 1595.73 lakhs is expected as Internal Revenue during 1987-88. Attempts have been made for mobilisation of additional resources in various sectors by increasing rates of taxes and duties during the current year. The resources mobilisation Committee of the State is to earnestly endeavouring to find ways and means to increase the resources in the State, and as a result certain new taxation measures will be introduced from 1988-89, It is our duty to encourage the people of Mizoram to shoulder heavier responsibility and burden by way of contribution towards taxes to meet at least a small portions of expenditure required to run the Administration and the growing developmental expenditure.

For mobilisation of additional resources, the Government is running three Lottery Schemes from which annual royalty of Rs. 263.20 lakhs is expected. The royalty received through lottery during 1986-87 could not be credited to the U.T. account due to shortage of time and the same has been taken into our receipt account for the State. For this reason, the Revenue Receipt under Lottery Schemes during 1988-89

will be less than the amount to be credited as revenue during 1988-89. Posts have been created for opening separate state Lottery Directorate and are expected to be filled up shortly. At present the state Lottery is attached in the Directorate of Accounts & Treasuries under the Administrative control of Finance Department.

I would like to mention further that for promoting Banking facilities and Small Savings Schemes, posts of Director Institutional Finance and Small Savings with the existing Officers and Staff. Attempts have been made to promote the small savings schemes in Mizoram for which the State Government will be benefited with 75% of the net collection through various small savings schemes such as National Saving Certificate, monthly income Schemes, Indira Vikas Patra etc. A target share for Rs. 0.50 lakhs and Rs. 0.75 lakhs only through small savings have been given for 1987-88 and 1988-89.

I have briefly reviewed the activities and achievements of the departments of the government of Mizoram and their programmes for 1988-89. I hope that the opinions to be expressed by Honourable members during discussion on this budget which emanate from their good intentions and constructive criticism and other observations would be of great help to the Government. To ensure the success of our development schemes, all of us have to make constant efforts and rise above petty personal considerations so that we are able to fulfill at least the basic needs of the people.

Before concluding my speech, I would wish to express my sincere thanks to the Officers and Staff of Finance Department and Government Press whose dedication and hardwork has enabled me to present this budget in time.

Mr. Speaker Sir, I thank you and all the members of the House for giving me your patient hearing and attention. I now place the supplementary Demands for 1987-88 and the budget Estimate for 1988-89 for consideration and approval of this August House.

Thank you.
