* NIRUPAM CHAKMA

: By Speaker, thank you first of all I would like to convey my thanks to the Minister-in-charge, and the

department of finance as well as the Government for keeping the proposal for the opening of sub-treasury at Chawngte, because we have been facing lots of difficulties in our area, since we don't have any banks, or any ~~or~~ Sub-Treasury facilities. So it is of privilege to strength the Government well, I don't have much to say regard to accounts and treasuries and also Excise and taxation but I would like to inform the department concern that in our area althought there is no suggestion by tensing facilities of or opening wine store and all but in our area we have surprise that there is full of wine, if there is no winehop, anyhow there is full of wine. The fact is that, there is illegal trafficking if the excise department is sincere, then I think the problem will be sove.

I don't know how the wine is carried upto in Chawngte Sub-division and Tlabung Sub-division, there is any trade-port like that. So, this is for information only or rather to bring to the notice of the Government that there is illegal trafficking of wine or foreign made Indian liquor, Indian made foreign liquor.

So, we shall be happy if the department concern take initiative to prevent if illegal trafficking in our area. Well, now I speak something about education in Mizoram. What I feel education in Mizoram, it is the facilities we get here, it is generally for the poor because rich person, big officers, big men they have send there may be some feeling that going outside Mizoram sending children outside Mizoram one can get better education places like Shilling, Darjeeling, North Eastern region, and outside that Delhi, Madras, Bangalore, Poona. Rich men, officers, and other big men they can afford better education with giving betterment. But, here in our state, the poor person cannot afford to send their children outside Mizoram for better educational facilities. This we must consider seriously otherwise, we cannot give better educational facilities to the poor, in Mizoram wait this gap in our school, colleges, the children of the poor are going for education, if the government do not take initiative to enrich education in our state, then we cannot give better education to the poor people here. Because they cannot go outside, they cannot send their children outside, in our school unless we find that the building is about to collapsed there is no furniture there is no teachers, If we go on like this, we cannot achieve especially in rural areas we are staying in rural area and so what is the difficulties, and we know what is the difficulty face by the student. I have been in some of the Middle School the Mathematics teacher, a man who failed in matric in Mathematics, he has become a mathematic teacher, this is too much. So, we should approach in such a way, knowing fully one the difficulties the effect difficulties face by the teachers. Other difficulties we have got with our school and colleges. Now, as I represent Chawngte I cannot avoid without expressing something about Chawngte Sub-division or rather the Chakma communities in Mizoram. There is a general feeling that wherever a man seize Chakma the thief an illiterate because he didn't study but it should be understood why he is illiterate, why he does not know how to speak, why he does not know how to write. Mizoram is one of the separate ranking literacy percentage in India.

*PU ZORAWIANGA :
